

## **Component Specification**

**Psychology** 

NFQ Level 5

5N0754

### 1. Component Details

**Title** Psychology

**Teideal as Gaeilge** Síceolaíocht Fheidhmeach

Award Class Minor

**Code** 5N0754

Level 5

Credit Value 15

**Purpose** The purpose of this award is to equip the learner with the

knowledge, skill and competence to link an introductory understanding of psychological perspectives with practical therapeutic applications and the development of psychology as a

discipline.

**Learning Outcomes** 

Learners will be able to:

- 1 Explain the main features, characteristics, core principles and concepts of two of the major psychological perspectives
- 2 Identify the main therapies, interventions, practical and ethical boundaries of each psychological perspective within care and other settings
- 3 Explain how each perspective contributes to an understanding of individual and group behaviour
- 4 Gain an understanding of the research methods and ethical issues involved in the study of psychology

- 5 Apply theory and research to work practice with due regards for ethics
- 6 Examine the nature of attitudes and beliefs
- 7 Apply skills/knowledge to typical work-based problems.

#### **Assessment**

#### **General Information**

Details of FET assessment requirements are set out in Assessment Guidelines for Providers.

All FET assessment is criterion referenced. Successful achievement of the award is based on learners attaining the required standards of knowledge, skill or competence.

The techniques set out below are considered the optimum approach to assessment for this component. In exceptional circumstances providers may identify alternative assessment techniques through the provider's application for programme validation which are **reliable** and **valid** but which are more appropriate to their context.

Assessment of a number of components may be integrated across programmes for delivery, provided that the learning outcomes of each minor award are assessed.

Group or team work may form part of the assessment, provided each learner's achievement is separately assessed.

All providers are required to submit an assessment plan as part of their application for programme validation. Assessment Plans will include information relating to scheduling and integration of assessment. See current FET validation guidelines at <a href="https://www.qqi.ie">www.qqi.ie</a>.

#### **Assessment Techniques**

In order to demonstrate that they have reached the standards of knowledge, skill and competence identified in all the learning outcomes, learners are required to complete the assessment(s) below.

The assessor is responsible for devising assessment instruments (e.g. project and assignment briefs, examination papers), assessment criteria and mark sheets, consistent with the techniques identified below and FETAC's assessment requirements.

Programme validation will require providers to map each learning outcome to its associated assessment technique. See current FET validation guidelines at <a href="https://www.qqi.ie">www.qqi.ie</a>.

All learning outcomes must be assessed and achieved

Assignment 60% Examination - Theory 40%

## Description

## **Assignment**

An assignment is an exercise carried out in response to a brief with specific guidelines as to what should be included. An assignment is usually of short duration and may be carried out over a specified period of time.

The internal assessor will devise two briefs that require candidates to produce evidence that demonstrates an understanding and application of a range of learner outcomes.

The briefs will present case studies of clients in a care situation. Each case study brief will contain sufficient information to provide a natural and realistic description of a client's situation and needs. The candidate will deliver a response that demonstrates the knowledge and skills required to contribute to meeting the needs of a particular client.

The candidate will identify needs (at least two) which are being met in each situation and explain why this is the case. They will also identify needs (at least two) that are not being met and explain why this is the case. The candidate is required to detail the interpersonal skills required to meet the needs of the client and will describe a suitable course of action appropriate to meet these needs.

The assignment may be presented in a variety of media, for example written, oral, graphic, audio, visual or any combination of these. Any audio or video evidence must be provided on tape.

## **Examination - Theory**

An examination provides a means of assessing a learner's ability to recall and apply knowledge, skills and understanding within a set period of time and under clearly specified conditions.

A theory-based examination assesses the ability to recall, apply and understand specific theory and knowledge.

The internal assessor will devise a theory-based examination that assesses the candidate; s ability to recall and apply theory and understanding, requiring responses to a range of structured questions. The examination may be written or oral and will be based on a range of learning outcomes.

The examination will be 2 hours in duration and the format is as follows:

- 10 short questions (2 marks each)

- 3 Structured questions candidates are required to answer 2 (10 marks each)

# Recognition of Prior Learning (RPL)

Learners may be assessed on the basis of their prior knowledge and experience. Providers must be specifically quality assured to assess learners by this means. To do so they must complete B10, see Provider's Quality Assurance Guidelines and be included on the Register of RPL approved providers. See RPL Guidelines at <a href="https://www.fetac.ie">www.fetac.ie</a> for further information and registration details.

**Grading** Pass 50% - 64%

Merit 65% - 79%

Distinction 80% - 100%

Specific Validation Requirements

There are no specific validation requirements for this award

Supporting Documentation

None

Access To access programmes leading to this award the learner should

have reached the standards of knowledge, skill and competence associated with the preceding level of the National Framework of Qualifications. This may have been achieved through a formal qualification or through relevant life and work experience.

**Transfer** Achievement of this award will enable the learner to transfer to

other appropriate programmes leading to awards at the same

level of the National Framework of Qualifications.

## 2. FET Award Standards

QQI award standards are determined within the National Framework of Qualifications (NFQ), <a href="http://www.nfq-qqi.com">http://www.nfq-qqi.com</a>. QQI determines standards for the education and training awards that it makes itself and that are made by providers to whom it has delegated authority to make an award. Providers offering programmes leading to QQI awards **must** have their programme(s) validated in accordance with current validation policy (see <a href="https://www.qqi.ie">www.qqi.ie</a>).

Award standards are designed to be consistent with the NFQ's award classes i.e. major, special purpose, supplemental and minor awards. They are expressed in terms of **learning outcomes** i.e. concise statements of what the learner is expected to know or be able to do in order to achieve a particular award. Learning outcomes for FET awards are contained within the associated specifications:

AWARD CLASS	STANDARDS	AWARDS
Major Award	Certificate Specification	Certificate (Levels 1 to 5) Advanced Certificate (Level 6)
Supplemental Award	Supplemental Specification	Supplemental Certificate (Level 3 to 6)
Special Purpose	Specific Purpose Specification	Specific Purpose Certificate (Levels 3 to 6)
Minor Award	Component Specification	Component Certificate (Levels 1 to 6)

Award standards are thresholds, they describe standards of knowledge, skill or competence to be acquired, and where appropriate, demonstrated, by a learner before an award may be made.

Award standards will be reviewed from time to time as necessary. Minor changes may be made by the QQI executive outside the review cycle where necessary. Changes to standards are published on QQI's website. Providers with validated programmes and providers with delegated authority to make awards are responsible for monitoring relevant standards and making necessary responses to changes.

#### 3. FET Credit

Every FET certificate and component specification includes an FET credit value (Table 1). FET credit is quantified in multiples of 5 FET credits (up to 50 hours of learner effort). Learner effort is based on the time taken by typical learners at the level of the award to achieve the learning outcomes for the award. It includes all learning time involved including: guided learning hours, self-directed learning and assessment.

**Table 1: FET Credit Values** 

NFQ Level	Major Awards Credit Values	Default Credit Values Minor Awards	Other Permitted Minor Award Credit Values	Special Purpose and Supplemental Award Credit Value Ranges
1	20	5	10	
2	30	5	10	
3	60	10	5,20	>5 and<60
4	90	10	5,15,20	>5 and<90
5	120	15	5,10,30	>5 and <120
6	120	15	5,10,30	>5 and <120

#### **Guide to Level**

Learning outcomes at this level include a broad range of skills that require some theoretical understanding. The outcomes may relate to engaging in a specific activity, with the capacity to use the instruments and techniques relating to an occupation. They are associated with work being undertaken independently, subject to general direction.

Strand	Sub-strand	Nature of learning
--------	------------	--------------------

Knowledge	Breadth	Broad range of knowledge	
	Kind	Some theoretical concepts and abstract thinking, with significant depth in some areas.	
Know How & Skill	Range	Demonstrate a broad range of specialised skills and tools	
	Selectivity	Evaluate and use information to plan and develop investigative strategies and to determine solutions to varied unfamiliar problems	
Competence	Context	Act in a range of varied and specific contexts, taking responsibility for the nature and quality of outputs; identify and apply skill and knowledge to a wide variety of contexts	
	Role	Exercise some initiative and independence in carrying out defined activities; join and function within multiple, complex and heterogeneous groups	
	Learning to Learn	Learn to take responsibility for own learning within a managed environment	
	Insight	Assume full responsibility for consistency of self- understanding and behaviour
