

Component Specification

Printmaking

NFQ Level 5

5N1373

1. Component Details

Title	Printmaking		
Teideal as Gaeilge	Déanamh Priontaí		
Award Class	Minor		
Code	5N1373		
Level	5		
Credit Value	15		
Purpose	The purpose of this award is to equip the learner with the knowledge, skill and competence to develop the craft of printmaking as a means of creative self expression.		
Learning Outcomes		Learners will be able to:	
	1	Explore the principles of printmaking	
	2	Describe traditional and modern approaches to printmaking	
	3	Outline health and safety issues in workshop practices associate with printmaking	
	4	Apply a broad range of printing techniques	
	5	Interpret source materials relevant to the printmaking area	
	6	Express individual creativity and visual awareness through printmaking	

	7	Investigate solutions for creative expression through critical evaluation and self-awareness
	8	Implement safe workshop practices
	9	Reflect on the nature and quality of work produced
	10	Exercise initiative in relation to working independently and in groups.
Assessment		
General Information		ails of FET assessment requirements are set out in essment Guidelines for Providers.
	All FET assessment is criterion referenced. Successful achievement of the award is based on learners attaining the required standards of knowledge, skill or competence.	
	The techniques set out below are considered the optimum approach to assessment for this component. In exceptional circumstances providers may identify alternative assessment techniques through the provider's application for programme validation which are reliable and valid but which are more appropriate to their context.	
	acro	essment of a number of components may be integrated oss programmes for delivery, provided that the learning comes of each minor award are assessed.
		up or team work may form part of the assessment, provided h learner's achievement is separately assessed.
	of ti will ass	providers are required to submit an assessment plan as part neir application for programme validation. Assessment Plans include information relating to scheduling and integration of essment. See current FET validation guidelines at <u>w.qqi.ie</u> .
Assessment Techniques	kno	rder to demonstrate that they have reached the standards of wledge, skill and competence identified in all the learning comes, learners are required to complete the assessment(s) ow.
	inst pap the	e assessor is responsible for devising assessment ruments (e.g. project and assignment briefs, examination ers), assessment criteria and mark sheets, consistent with techniques identified below and FETAC's assessment uirements.

	Programme validation will require providers to map each learning outcome to its associated assessment technique. See current FET validation guidelines at <u>www.qqi.ie</u> . All learning outcomes must be assessed and achieved			
Description	Portfolio / Collect	ion of Work 100%		
	Portfolio / Colleo	ction of Work		
	of work produced achievement of a self-generated or	ection of work is a collection and/or selection of pieces I by the learner over a period of time that demonstrates range of learning outcomes. The collection may be may be generated in response to a particular brief or evised by the assessor.		
Recognition of Prior Learning (RPL)	Learners may be assessed on the basis of their prior knowledge and experience. Providers must be specifically quality assured to assess learners by this means. To do so they must complete B10, see Provider's Quality Assurance Guidelines and be included on the Register of RPL approved providers. See RPL Guidelines at www.fetac.ie for further information and registration details.			
Grading	Pass	50% - 64%		
-	Merit	65% - 79%		
	Distinction	80% - 100%		
Specific Validation Requirements	There are no spe	cific validation requirements for this award		
Supporting Documentation	None			
Access	To access programmes leading to this award the learner should have reached the standards of knowledge, skill and competence associated with the preceding level of the National Framework of Qualifications. This may have been achieved through a formal qualification or through relevant life and work experience.			
Transfer	Successful completion of this component award enables the learner to transfer to programmes leading to other certificates where this component is a mandatory or an elective requirement.			

2. FET Award Standards

QQI award standards are determined within the National Framework of Qualifications (NFQ), <u>http://www.nfq-qqi.com</u>. QQI determines standards for the education and training awards that it makes itself and that are made by providers to whom it has delegated authority to make an award. Providers offering programmes leading to QQI awards **must** have their programme(s) validated in accordance with current validation policy (see <u>www.qqi.ie</u>).

Award standards are designed to be consistent with the NFQ's award classes i.e. major, special purpose, supplemental and minor awards. They are expressed in terms of **learning outcomes** i.e. concise statements of what the learner is expected to know or be able to do in order to achieve a particular award. Learning outcomes for FET awards are contained within the associated specifications:

AWARD CLASS	STANDARDS	AWARDS
Major Award	Certificate Specification	Certificate (Levels 1 to 5) Advanced Certificate (Level 6)
Supplemental Award	Supplemental Specification	Supplemental Certificate (Level 3 to 6)
Special Purpose	Specific Purpose Specification	Specific Purpose Certificate (Levels 3 to 6)
Minor Award	Component Specification	Component Certificate (Levels 1 to 6)

Award standards are thresholds, they describe standards of knowledge, skill or competence to be acquired, and where appropriate, demonstrated, by a learner before an award may be made.

Award standards will be reviewed from time to time as necessary. Minor changes may be made by the QQI executive outside the review cycle where necessary. Changes to standards are published on QQI's website. Providers with validated programmes and providers with delegated authority to make awards are responsible for monitoring relevant standards and making necessary responses to changes.

3. FET Credit

Every FET certificate and component specification includes an FET credit value (Table 1). FET credit is quantified in multiples of 5 FET credits (up to 50 hours of learner effort). Learner effort is based on the time taken by typical learners at the level of the award to achieve the learning outcomes for the award. It includes all learning time involved including: guided learning hours, self-directed learning and assessment.

Table 1: FET Credit Values

NFQ Level	Major Awards Credit Values	Default Credit Values Minor Awards	Other Permitted Minor Award Credit Values	Special Purpose and Supplemental Award Credit Value Ranges
1	20	5	10	
2	30	5	10	
3	60	10	5,20	>5 and<60

4	90	10	5,15,20	>5 and<90
5	120	15	5,10,30	>5 and <120
6	120	15	5,10,30	>5 and <120

Guide to Level

Learning outcomes at this level include a broad range of skills that require some theoretical understanding. The outcomes may relate to engaging in a specific activity, with the capacity to use the instruments and techniques relating to an occupation. They are associated with work being undertaken independently, subject to general direction.

Strand	Sub-strand	Nature of learning
Knowledge	Breadth	Broad range of knowledge
	Kind	Some theoretical concepts and abstract thinking, with significant depth in some areas.
Know How & Skill	Range	Demonstrate a broad range of specialised skills and tools
	Selectivity	Evaluate and use information to plan and develop investigative strategies and to determine solutions to varied unfamiliar problems
Competence	Context	Act in a range of varied and specific contexts, taking responsibility for the nature and quality of outputs; identify and apply skill and knowledge to a wide variety of contexts
	Role	Exercise some initiative and independence in carrying out defined activities; join and function within multiple, complex and heterogeneous groups
	Learning to Learn	Learn to take responsibility for own learning within a managed environment
	Insight	Assume full responsibility for consistency of self- understanding and behaviour
