

# **Component Specification**

## **Architectural Drawing**

## NFQ Level 5

### 5N1558

## 1. Component Details

| Title              | Architectural Drawing  |  |
|--------------------|--|--|
| Teideal as Gaeilge | Líníocht Ailtireachta  |  |
| Award Class        | Minor  |  |
| Code               | 5N1558   |  |
| Level              | 5  |  |
| Credit Value       | 15   |  |
| Purpose            | The purpose of this award is to equip the learner with the knowledge, skill and competence to enable the learner to acquire and use architectural drawing skills as a means of communicating ideas, concepts and details in an architectural discipline. |  |
| Learning Outcomes  |  | Learners will be able to:  |
|                    | 1  | Apply draughting techniques to include architectural conventions and symbols                 |
|                    | 2  | Investigate the architectural world to include freehand sketches and other research evidence |
|                    | 3  | Illustrate architectural detailing on both freehand and scaled drawings                      |
|                    | 4  | Analyse space and form in designs  |
|                    | 5  | Construct orthographic views in standard scales to include both first and third angle        |

|                       | 6                              | Experiment with various three dimensional (3D) architectural details to include cutaway details   |
|-----------------------|--------------------------------|---|
|                       | 7                              | Employ perspective views to communicate designs   |
|                       | 8                              | Apply computer aided draughting (CAD) technology to designs   |
|                       | 9                              | Execute surveys to include both internal and external   |
|                       | 10                             | Interpret a specific design brief considering, planning, objectives, preparation and time management.   |
| Assessment            |                                |   |
| General Information   |                                | ails of FET assessment requirements are set out in essent Guidelines for Providers.   |
|                       | achi                           | ET assessment is criterion referenced. Successful evement of the award is based on learners attaining the irred standards of knowledge, skill or competence.  |
|                       | appr<br>circu<br>tech<br>valic | techniques set out below are considered the optimum<br>roach to assessment for this component. In exceptional<br>umstances providers may identify alternative assessment<br>niques through the provider's application for programme<br>lation which are <b>reliable</b> and <b>valid</b> but which are more<br>ropriate to their context. |
|                       | acro                           | essment of a number of components may be integrated<br>ss programmes for delivery, provided that the learning<br>omes of each minor award are assessed.   |
|                       |                                | up or team work may form part of the assessment, provided<br>learner's achievement is separately assessed.  |
|                       | of th<br>will i<br>asse        | providers are required to submit an assessment plan as part<br>eir application for programme validation. Assessment Plans<br>nclude information relating to scheduling and integration of<br>essment. See current FET validation guidelines at<br>v.qqi.ie.   |
| Assessment Techniques | knov                           | der to demonstrate that they have reached the standards of<br>wledge, skill and competence identified in all the learning<br>omes, learners are required to complete the assessment(s)<br>w.  |
|                       | instr                          | assessor is responsible for devising assessment<br>uments (e.g. project and assignment briefs, examination<br>ers), assessment criteria and mark sheets, consistent with  |

|  | the techniques ide<br>requirements.  | ntified below a   | nd FETAC's assessment   |
|--|--|---|---|
|  | -  | ociated assess  | e providers to map each learning<br>ment technique. See current<br>/.qqi.ie.  |
|  | All learning outcom  | nes <b>must</b> be as   | ssessed and achieved  |
|  | Project  |   | 40%   |
| Description                            | Portfolio / Collectio  | on of Work  | 60%   |
|  | Project  |   |   |
|  | usually carried out<br>involve research, r   | over an exten<br>equire investig<br>ss such as a d                    | devised by the assessor. A project is<br>ded period of time. Projects may<br>aation of a topic, issue or problem or<br>esign task, a performance or practical<br>ct or event.                       |
|  | Portfolio / Collect  | ion of Work   |   |
|  | of work produced l<br>achievement of a r   | by the learner o<br>range of learnii<br>may be genera                 | a collection and/or selection of pieces<br>over a period of time that demonstrates<br>ng outcomes. The collection may be<br>ted in response to a particular brief or<br>sessor.                     |
| Recognition of Prior<br>Learning (RPL) | and experience. P<br>to assess learners<br>B10, see Provider's<br>included on the Re | Providers must<br>by this means<br>s Quality Assu<br>egister of RPL a | e basis of their prior knowledge<br>be specifically quality assured<br>. To do so they must complete<br>rance Guidelines and be<br>approved providers. See RPL<br>ther information and registration |
| Grading                                | Pass   | 50% - 64%   |   |
|  | Merit  | 65% - 79%   |   |
|  | Distinction  | 80% - 100%  |   |
| Specific Validation<br>Requirements    | There are no spec  | ific validation r   | equirements for this award  |
| Supporting<br>Documentation            | None   |   |   |

| Access   | To access programmes leading to this award the learner should<br>have reached the standards of knowledge, skill and competence<br>associated with the preceding level of the National Framework of<br>Qualifications. This may have been achieved through a formal<br>qualification or through relevant life and work experience. |
|----------|---|
| Transfer | Successful completion of this component award enables the learner to transfer to programmes leading to other certificates where this component is a mandatory or an elective requirement.   |

#### 2. FET Award Standards

QQI award standards are determined within the National Framework of Qualifications (NFQ), <u>http://www.nfq-qqi.com</u>. QQI determines standards for the education and training awards that it makes itself and that are made by providers to whom it has delegated authority to make an award. Providers offering programmes leading to QQI awards **must** have their programme(s) validated in accordance with current validation policy (see <u>www.qqi.ie</u>).

Award standards are designed to be consistent with the NFQ's award classes i.e. major, special purpose, supplemental and minor awards. They are expressed in terms of **learning outcomes** i.e. concise statements of what the learner is expected to know or be able to do in order to achieve a particular award. Learning outcomes for FET awards are contained within the associated specifications:

| AWARD CLASS        | STANDARDS                      | AWARDS  |
|--------------------|--------------------------------|---|
| Major Award        | Certificate Specification      | Certificate (Levels 1 to 5)<br>Advanced Certificate (Level 6) |
| Supplemental Award | Supplemental Specification     | Supplemental Certificate (Level 3 to 6)                       |
| Special Purpose    | Specific Purpose Specification | Specific Purpose Certificate (Levels 3 to 6)                  |
| Minor Award        | Component Specification        | Component Certificate (Levels 1 to 6)                         |

Award standards are thresholds, they describe standards of knowledge, skill or competence to be acquired, and where appropriate, demonstrated, by a learner before an award may be made.

Award standards will be reviewed from time to time as necessary. Minor changes may be made by the QQI executive outside the review cycle where necessary. Changes to standards are published on QQI's website. Providers with validated programmes and providers with delegated authority to make awards are responsible for monitoring relevant standards and making necessary responses to changes.

#### 3. FET Credit

Every FET certificate and component specification includes an FET credit value (Table 1). FET credit is quantified in multiples of 5 FET credits (up to 50 hours of learner effort). Learner effort is based on the time taken by typical learners at the level of the award to achieve the learning outcomes for the award. It includes all learning time involved including: guided learning hours, self-directed learning and assessment.

#### Table 1: FET Credit Values

| NFQ<br>Level               | Major Awards<br>Credit Values      | Default Credit<br>Values Minor<br>Awards | Other Permitted<br>Minor Award<br>Credit Values   | Special Purpose and<br>Supplemental Award<br>Credit Value Ranges |
|----------------------------|------------------------------------|--|---|--|
| 1<br>2<br>3<br>4<br>5<br>6 | 20<br>30<br>60<br>90<br>120<br>120 | 5<br>5<br>10<br>10<br>15<br>15           | 10<br>10<br>5,20<br>5,15,20<br>5,10,30<br>5,10,30 | >5 and<60<br>>5 and<90<br>>5 and <120<br>>5 and <120             |

#### **Guide to Level**

Learning outcomes at this level include a broad range of skills that require some theoretical understanding. The outcomes may relate to engaging in a specific activity, with the capacity to use the instruments and techniques relating to an occupation. They are associated with work being undertaken independently, subject to general direction.

| Strand              | Sub-strand           | Nature of learning  |
|---------------------|----------------------|---|
| Knowledge           | Breadth              | Broad range of knowledge  |
|                     | Kind                 | Some theoretical concepts and abstract thinking, with significant depth in some areas.  |
| Know How &<br>Skill | Range                | Demonstrate a broad range of specialised skills and tools   |
|                     | Selectivity          | Evaluate and use information to plan and develop investigative strategies and to determine solutions to varied unfamiliar problems  |
| Competence          | Context              | Act in a range of varied and specific contexts, taking responsibility for the nature and quality of outputs; identify and apply skill and knowledge to a wide variety of contexts |
|                     | Role                 | Exercise some initiative and independence in carrying out defined activities; join and function within multiple, complex and heterogeneous groups                                 |
|                     | Learning to<br>Learn | Learn to take responsibility for own learning within a managed environment  |
|                     | Insight              | Assume full responsibility for consistency of self- understanding and behaviour   |
