

Component Specification

Creative Arts for Early Childhood

NFQ Level 5

5N1769

1. Component Details

Title	Creative Arts for Early Childhood		
Teideal as Gaeilge	Ealaíona Cruthaitheacha sa Luath-Óige		
Award Class	Minor		
Code	5N1769		
Level	5		
Credit Value	15		
Purpose	The purpose of the award is to equip the learner with the knowledge, skill and competence in facilitating child¿s learning, development and well-being through the provision of creative opportunities; to enable the learner to devise experiences, activities, interaction and materials with regard to the age and stage of development of the child utilising varied media, art and craft, drama, music and any other creative endeavours.		
Learning Outcomes		Learners will be able to:	
	1	Examine a variety of creative media opportunities with young children	
	2	Summarise the benefits of exploration and participation in creative arts for the child	
	3	Explore the role of the adult in creating an environment in which children feel secure and confident enough to take risks and explore new situations	
	4	Plan opportunities for consultation with children to plan and engage in creative arts experiences	

	5	Test open ended materials and natural items for creative arts in both the indoor and outdoor environments appropriate to different stages of children a development
	6	Explore challenges for adults in respecting choices and decisions of children
	7	Employ developmentally appropriate creative arts activities which promote the holistic development of the child
	8	Reflect on own role and responsibilities when engaging in creative arts activities with children mindful of health and safety.
Assessment		
General Information		ails of FET assessment requirements are set out in essment Guidelines for Providers.
	ach	FET assessment is criterion referenced. Successful ievement of the award is based on learners attaining the uired standards of knowledge, skill or competence.
	app circ tecł vali	e techniques set out below are considered the optimum proach to assessment for this component. In exceptional umstances providers may identify alternative assessment nniques through the provider's application for programme dation which are reliable and valid but which are more propriate to their context.
	acro	essment of a number of components may be integrated oss programmes for delivery, provided that the learning comes of each minor award are assessed.
		oup or team work may form part of the assessment, provided the learner's achievement is separately assessed.
	of ti will ass	providers are required to submit an assessment plan as part heir application for programme validation. Assessment Plans include information relating to scheduling and integration of essment. See current FET validation guidelines at w.qqi.ie.
Assessment Techniques	kno	order to demonstrate that they have reached the standards of owledge, skill and competence identified in all the learning comes, learners are required to complete the assessment(s) ow.
		e assessor is responsible for devising assessment ruments (e.g. project and assignment briefs, examination

	 papers), assessment criteria and mark sheets, consistent with the techniques identified below and FETAC's assessment requirements. Programme validation will require providers to map each learning outcome to its associated assessment technique. See current FET validation guidelines at <u>www.qqi.ie</u>. All learning outcomes must be assessed and achieved Project 40% 		
	Portfolio / Collectio	n of Work	60%
Description			0070
	Project		
	A project is a response to a brief devised by the assessor. A project is usually carried out over an extended period of time. Projects may involve research, require investigation of a topic, issue or problem or may involve process such as a design task, a performance or practical activity or production of an artefact or event.		
	Portfolio / Collection of Work		
	of work produced k achievement of a r	by the learner o ange of learnir may be genera	a collection and/or selection of pieces over a period of time that demonstrates ng outcomes. The collection may be ted in response to a particular brief or sessor.
Recognition of Prior Learning (RPL)	Learners may be assessed on the basis of their prior knowledge and experience. Providers must be specifically quality assured to assess learners by this means. To do so they must complete B10, see Provider's Quality Assurance Guidelines and be included on the Register of RPL approved providers. See RPL Guidelines at www.fetac.ie for further information and registration details.		
Grading	Pass	50% - 64%	
	Merit	65% - 79%	
	Distinction	80% - 100%	
Specific Validation Requirements	award: In the progr	amme validati	following in place to offer this on application, the provider is sure that each learner on the

	programme will be given an opportunity to acquire knowledge, skill and competence and have some assessments carried out in a notified Early Childhood Care and Education setting or recognised equivalent.
Supporting Documentation	None
Access	To access programmes leading to this award the learner should have reached the standards of knowledge, skill and competence associated with the preceding level of the National Framework of Qualifications. This may have been achieved through a formal qualification or through relevant life and work experience.
Transfer	Successful completion of this component award enables the learner to transfer to programmes leading to other certificates where this component is a mandatory or an elective requirement.

2. FET Award Standards

QQI award standards are determined within the National Framework of Qualifications (NFQ), <u>http://www.nfq-qqi.com</u>. QQI determines standards for the education and training awards that it makes itself and that are made by providers to whom it has delegated authority to make an award. Providers offering programmes leading to QQI awards **must** have their programme(s) validated in accordance with current validation policy (see <u>www.qqi.ie</u>).

Award standards are designed to be consistent with the NFQ's award classes i.e. major, special purpose, supplemental and minor awards. They are expressed in terms of **learning outcomes** i.e. concise statements of what the learner is expected to know or be able to do in order to achieve a particular award. Learning outcomes for FET awards are contained within the associated specifications:

AWARD CLASS	STANDARDS	AWARDS
Major Award	Certificate Specification	Certificate (Levels 1 to 5) Advanced Certificate (Level 6)
Supplemental Award	Supplemental Specification	Supplemental Certificate (Level 3 to 6)
Special Purpose	Specific Purpose Specification	Specific Purpose Certificate (Levels 3 to 6)
Minor Award	Component Specification	Component Certificate (Levels 1 to 6)

Award standards are thresholds, they describe standards of knowledge, skill or competence to be acquired, and where appropriate, demonstrated, by a learner before an award may be made.

Award standards will be reviewed from time to time as necessary. Minor changes may be made by the QQI executive outside the review cycle where necessary. Changes to standards are published on QQI's website. Providers with validated programmes and providers with delegated authority to make awards are responsible for monitoring relevant standards and making necessary responses to changes.

3. FET Credit

Every FET certificate and component specification includes an FET credit value (Table 1). FET credit is quantified in multiples of 5 FET credits (up to 50 hours of learner effort). Learner effort is based on the time taken by typical learners at the level of the award to achieve the learning outcomes for the award. It includes all learning time involved including: guided learning hours, self-directed learning and assessment.

Table 1: FET Credit Values

NFQ Level	Major Awards Credit Values	Default Credit Values Minor Awards	Other Permitted Minor Award Credit Values	Special Purpose and Supplemental Award Credit Value Ranges
1 2 3 4 5 6	20 30 60 90 120 120	5 5 10 10 15 15	10 10 5,20 5,15,20 5,10,30 5,10,30	>5 and<60 >5 and<90 >5 and <120 >5 and <120

Guide to Level

Learning outcomes at this level include a broad range of skills that require some theoretical understanding. The outcomes may relate to engaging in a specific activity, with the capacity to use the instruments and techniques relating to an occupation. They are associated with work being undertaken independently, subject to general direction.

Strand	Sub-strand	Nature of learning
Knowledge	Breadth	Broad range of knowledge
	Kind	Some theoretical concepts and abstract thinking, with significant depth in some areas.
Know How & Skill	Range	Demonstrate a broad range of specialised skills and tools
	Selectivity	Evaluate and use information to plan and develop investigative strategies and to determine solutions to varied unfamiliar problems
Competence	Context	Act in a range of varied and specific contexts, taking responsibility for the nature and quality of outputs; identify and apply skill and knowledge to a wide variety of contexts
	Role	Exercise some initiative and independence in carrying out defined activities; join and function within multiple, complex and heterogeneous groups
	Learning to Learn	Learn to take responsibility for own learning within a managed environment
	Insight	Assume full responsibility for consistency of self- understanding and behaviour
