

Component Specification

Security Industry Procedures

NFQ Level 5

5N1785

1. Component Details

Title	Security Industry Procedures
Teideal as Gaeilge	Gnásanna Tionscal Slándála
Award Class	Minor
Code	5N1785
Level	5
Credit Value	15
Purpose	The purpose of this award is to equip the learner with the knowledge, skill and competence to work in the security industry as a security officer performing practical security duties and procedures, and responding to security situations in a variety of settings.
Learning Outcomes	<p>Learners will be able to:</p> <ol style="list-style-type: none">1 Explain the relevant legislation, regulations and standards governing the provision of a private security service to include reference to relevant Private Security Services legislation, relevant national and international standards, licensing and the role of the Private Security Authority2 Explain the role of private security services in relation to the role of other agencies which deal with crime and loss prevention3 Distinguish between legal codes and practices relating to the role of a security officer to include; criminal and civil law, the rights of the individual, Health and Safety legislation and regulations,

- Equality legislation, security industry licensing requirements and relevant national and international standards
- 4 State the principal points of relevant national labour regulations
 - 5 List the role and responsibilities, and a range of personal and professional qualities required of a variety of security personnel
 - 6 Outline relevant Health and Safety requirements including dealing with fire and fire regulations, and other areas, that relate to the role of a security officer
 - 7 Explain the role of a security officer in the implementation of a range of company policies and procedures including, health and safety, communications, customer service and equality procedures
 - 8 Explain what is meant by loss prevention and detection
 - 9 Explain what is meant by reasonable and necessary force
 - 10 Explain a range of security policies and procedures for use by a security officer in a variety of settings to include door security, static guard, retail guard and event security officer
 - 11 Explain the potential for breaches of security in a variety of situations
 - 12 Outline appropriate on-site cash handling procedures
 - 13 Explain appropriate conflict resolution techniques for dealing with a range of incidents
 - 14 Carry out the duties and procedures required of a security officer
 - 15 Respond appropriately to security incidents and emergencies
 - 16 Employ appropriate security, fire, health and safety procedures in a variety of settings
 - 17 Use a variety of supporting security tools and equipment to support the work of the security officer in dealing with a range of incidents in a variety of security settings

- 18 Respond appropriately for preserving a scene of crime and the recording of incidents, and liaison with appropriate agencies and organisations
- 19 Demonstrate a range of procedures for loss prevention and identification
- 20 Demonstrate appropriate procedures for dealing with a suspect
- 21 Employ appropriate administrative methods for the recording of reports and incidents
- 22 Use a range of appropriate access control, patrolling and search procedures in a variety of situations
- 23 Comply with assignment instructions for a variety of security situations
- 24 Provide a security service, compliant with legislation in a variety of settings, in the context of responding to a range of possible scenarios
- 25 Use appropriate communications skills and a range of customer service techniques in a variety of situations in the workplace.

Assessment

General Information

Details of FET assessment requirements are set out in [Assessment Guidelines for Providers](#).

All FET assessment is criterion referenced. Successful achievement of the award is based on learners attaining the required standards of knowledge, skill or competence.

The techniques set out below are considered the optimum approach to assessment for this component. In exceptional circumstances providers may identify alternative assessment techniques through the provider's application for programme validation which are **reliable** and **valid** but which are more appropriate to their context.

Assessment of a number of components may be integrated across programmes for delivery, provided that the learning outcomes of each minor award are assessed.

Group or team work may form part of the assessment, provided each learner's achievement is separately assessed.

All providers are required to submit an assessment plan as part of their application for programme validation. Assessment Plans will include information relating to scheduling and integration of

assessment. See current FET validation guidelines at www.qqi.ie.

Assessment Techniques

In order to demonstrate that they have reached the standards of knowledge, skill and competence identified in all the learning outcomes, learners are required to complete the assessment(s) below.

The assessor is responsible for devising assessment instruments (e.g. project and assignment briefs, examination papers), assessment criteria and mark sheets, consistent with the techniques identified below and FETAC's assessment requirements.

Programme validation will require providers to map each learning outcome to its associated assessment technique. See current FET validation guidelines at www.qqi.ie.

All learning outcomes **must** be assessed and achieved

Portfolio / Collection of Work	30%
Skills Demonstration	50%
Examination - Theory	20%

Description

Portfolio / Collection of Work

A portfolio or collection of work is a collection and/or selection of pieces of work produced by the learner over a period of time that demonstrates achievement of a range of learning outcomes. The collection may be self-generated or may be generated in response to a particular brief or tasks/activities devised by the assessor.

Skills Demonstration

A skills demonstration is used to assess a wide range of practical based learning outcomes including practical skills and knowledge. A skills demonstration will require the learner to complete a task or series of tasks that demonstrate a range of skills.

Examination - Theory

An examination provides a means of assessing a learner's ability to recall and apply knowledge, skills and understanding within a set period of time and under clearly specified conditions.

A theory-based examination assesses the ability to recall, apply and understand specific theory and knowledge.

Recognition of Prior Learning (RPL)	Learners may be assessed on the basis of their prior knowledge and experience. Providers must be specifically quality assured to assess learners by this means. To do so they must complete B10, see Provider's Quality Assurance Guidelines and be included on the Register of RPL approved providers. See RPL Guidelines at www.fetac.ie for further information and registration details.
Grading	Pass 50% - 64% Merit 65% - 79% Distinction 80% - 100%
Specific Validation Requirements	There are no specific validation requirements for this award
Supporting Documentation	1. Private Security Regulations 2005, 2006, 2007, 2009 and associated statutory instruments
Access	To access programmes leading to this award the learner should have reached the standards of knowledge, skill and competence associated with the preceding level of the National Framework of Qualifications. This may have been achieved through a formal qualification or through relevant life and work experience.
Transfer	Successful completion of this component award enables the learner to transfer to programmes leading to other certificates where this component is a mandatory or an elective requirement.

2. FET Award Standards

QQI award standards are determined within the National Framework of Qualifications (NFQ), <http://www.nfq-qqi.com>. QQI determines standards for the education and training awards that it makes itself and that are made by providers to whom it has delegated authority to make an award. Providers offering programmes leading to QQI awards **must** have their programme(s) validated in accordance with current validation policy (see www.qqi.ie).

Award standards are designed to be consistent with the NFQ's award classes i.e. major, special purpose, supplemental and minor awards. They are expressed in terms of **learning outcomes** i.e. concise statements of what the learner is expected to know or be able to do in order to achieve a particular award. Learning outcomes for FET awards are contained within the associated specifications:

AWARD CLASS	STANDARDS	AWARDS
-------------	-----------	--------

Major Award	Certificate Specification	Certificate (Levels 1 to 5) Advanced Certificate (Level 6)
Supplemental Award	Supplemental Specification	Supplemental Certificate (Level 3 to 6)
Special Purpose	Specific Purpose Specification	Specific Purpose Certificate (Levels 3 to 6)
Minor Award	Component Specification	Component Certificate (Levels 1 to 6)

Award standards are thresholds, they describe standards of knowledge, skill or competence to be acquired, and where appropriate, demonstrated, by a learner before an award may be made.

Award standards will be reviewed from time to time as necessary. Minor changes may be made by the QQI executive outside the review cycle where necessary. Changes to standards are published on QQI's website. Providers with validated programmes and providers with delegated authority to make awards are responsible for monitoring relevant standards and making necessary responses to changes.

3. FET Credit

Every FET certificate and component specification includes an FET credit value (Table 1). FET credit is quantified in multiples of 5 FET credits (up to 50 hours of learner effort). Learner effort is based on the time taken by typical learners at the level of the award to achieve the learning outcomes for the award. It includes all learning time involved including: guided learning hours, self-directed learning and assessment.

Table 1: FET Credit Values

NFQ Level	Major Awards Credit Values	Default Credit Values Minor Awards	Other Permitted Minor Award Credit Values	Special Purpose and Supplemental Award Credit Value Ranges
1	20	5	10	
2	30	5	10	
3	60	10	5,20	>5 and <60
4	90	10	5,15,20	>5 and <90
5	120	15	5,10,30	>5 and <120
6	120	15	5,10,30	>5 and <120

Guide to Level

Learning outcomes at this level include a broad range of skills that require some theoretical understanding. The outcomes may relate to engaging in a specific activity, with the capacity to use the instruments and techniques relating to an occupation. They are associated with work being undertaken independently, subject to general direction.

Strand	Sub-strand	Nature of learning
Knowledge	Breadth	Broad range of knowledge

	Kind	Some theoretical concepts and abstract thinking, with significant depth in some areas.
Know How & Skill	Range	Demonstrate a broad range of specialised skills and tools
	Selectivity	Evaluate and use information to plan and develop investigative strategies and to determine solutions to varied unfamiliar problems
Competence	Context	Act in a range of varied and specific contexts, taking responsibility for the nature and quality of outputs; identify and apply skill and knowledge to a wide variety of contexts
	Role	Exercise some initiative and independence in carrying out defined activities; join and function within multiple, complex and heterogeneous groups
	Learning to Learn	Learn to take responsibility for own learning within a managed environment
	Insight	Assume full responsibility for consistency of self- understanding and behaviour
