

Component Specification

Poultry Husbandry

NFQ Level 5

5N20414

1. Component Details

Title	Poultry Husbandry
Teideal as Gaeilge	Riar Éanlaith Chlóis
Award Class	Minor
Code	5N20414
Level	5
Credit Value	10
Purpose	The purpose of this award is to equip the learner with the knowledge skill and competence to carry out poultry husbandry tasks under management
Learning Outcomes	Learners will be able to: <ol style="list-style-type: none">1 Examine the current poultry industry population figures and trends in Ireland, and the top European poultry producing countries.2 Discuss poultry anatomical and physiological systems and their functioning3 Examine poultry production systems to include egg, meat and breeding stock production4 Discuss husbandry tasks associated with poultry production systems5 Discuss symptoms, causes, prevention and treatment measures for commonly occurring pests, disease and disorders of poultry

- 6 Discuss poultry husbandry recording legislative requirements
- 7 Discuss the average national performance and key performance indicators including economic indicators.
- 8 Examine the market requirements for poultry meat, egg and breeding
- 9 Examine the main developments in the Irish poultry industry including current legislation and national and European initiatives and likely future trends
- 10 Execute routine husbandry poultry practices
- 11 Execute routine hygiene poultry practices
- 12 Safely perform routine skills associated with various poultry production systems in accordance with best practice and welfare requirements
- 13 Analyse drivers of profit of poultry production and explore practices to attain industry recognised targets to include financial, physical and biological targets
- 14 Examine the economic value and trends of the Irish poultry industry.
- 15 Practice safety and workplace health in agriculture

Assessment

General Information

Details of FET assessment requirements are set out in [Assessment Guidelines for Providers](#).

All FET assessment is criterion referenced. Successful achievement of the award is based on learners attaining the required standards of knowledge, skill or competence.

The techniques set out below are considered the optimum approach to assessment for this component. In exceptional circumstances providers may identify alternative assessment techniques through the provider's application for programme validation which are **reliable** and **valid** but which are more appropriate to their context.

Assessment of a number of components may be integrated across programmes for delivery, provided that the learning outcomes of each minor award are assessed.

Group or team work may form part of the assessment, provided each learner's achievement is separately assessed.

All providers are required to submit an assessment plan as part of their application for programme validation. Assessment Plans will include information relating to scheduling and integration of assessment. See current FET validation guidelines at www.qqi.ie.

Assessment Techniques

In order to demonstrate that they have reached the standards of knowledge, skill and competence identified in all the learning outcomes, learners are required to complete the assessment(s) below.

The assessor is responsible for devising assessment instruments (e.g. project and assignment briefs, examination papers), assessment criteria and mark sheets, consistent with the techniques identified below and FETAC's assessment requirements.

Programme validation will require providers to map each learning outcome to its associated assessment technique. See current FET validation guidelines at www.qqi.ie.

All learning outcomes **must** be assessed and achieved

Examination - Theory	50%
Skills Demonstration	50%

Description

Examination - Theory

An examination provides a means of assessing a learner's ability to recall and apply knowledge, skills and understanding within a set period of time and under clearly specified conditions.

A theory-based examination assesses the ability to recall, apply and understand specific theory and knowledge.

The assessor will devise a theory based examination to assess learning outcomes 1 to 9, and 13 to 15.

Skills Demonstration

A skills demonstration is used to assess a wide range of practical based learning outcomes including practical skills and knowledge. A skills demonstration will require the learner to complete a task or series of tasks that demonstrate a range of skills.

The assessor will devise a skills demonstration for tasks listed below, based on learning outcomes 10 - 12

The learner must attempt 10 of the indicative poultry skills listed below.

Indicative poultry skills

- 1) Flock and bird observation
- 2) Routine bird health checks
- 3) Pen management
- 4) Litter management (Assessment of quality, handling, spreading, monitoring and disposal)
- 5) Feed system monitoring
- 6) Water system monitoring
- 7) Environment Control (temperature and lighting)
- 8) Bio-security and hygiene control
- 9) Catching and weighing for sale
- 10) Preparation of chicks for sale
- 11) Egg collection, grading and packing
- 12) Record keeping in accordance with legislative requirements

Recognition of Prior Learning (RPL)

Learners may be assessed on the basis of their prior knowledge and experience. Providers must be specifically quality assured to assess learners by this means. To do so they must complete B10, see Provider's Quality Assurance Guidelines and be included on the Register of RPL approved providers. See RPL Guidelines at www.fetac.ie for further information and registration details.

Grading

Pass	50% - 64%
Merit	65% - 79%
Distinction	80% - 100%

Specific Validation Requirements

The provider must have the following in place to offer this award:

1. Access to farm(s) with stated policies and procedures by the provider to deal with potential bio-security risks.

Supporting Documentation

1. Publications from: The Health and Safety Authority of Ireland
2. Publications from: Department of Agriculture, Food and the Marine
3. Publications from: Teagasc, The Agriculture and Food Development Authority

Access

To access programmes leading to this award the learner should have reached the standards of knowledge, skill and competence associated with the preceding level of the National Framework of Qualifications. This may have been achieved through a formal qualification or through relevant life and work experience.

The learner must have access to a poultry enterprise of sufficient size and with sufficient facilities to practice skills.

Transfer

Successful completion of this component award enables the learner to transfer to programmes leading to other certificates where this component is a mandatory or an elective requirement.

2. FET Award Standards

QQI award standards are determined within the National Framework of Qualifications (NFQ), <http://www.nfq-qqi.com>. QQI determines standards for the education and training awards that it makes itself and that are made by providers to whom it has delegated authority to make an award. Providers offering programmes leading to QQI awards **must** have their programme(s) validated in accordance with current validation policy (see www.qqi.ie).

Award standards are designed to be consistent with the NFQ's award classes i.e. major, special purpose, supplemental and minor awards. They are expressed in terms of **learning outcomes** i.e. concise statements of what the learner is expected to know or be able to do in order to achieve a particular award. Learning outcomes for FET awards are contained within the associated specifications:

AWARD CLASS	STANDARDS	AWARDS
Major Award	Certificate Specification	Certificate (Levels 1 to 5) Advanced Certificate (Level 6)
Supplemental Award	Supplemental Specification	Supplemental Certificate (Level 3 to 6)
Special Purpose	Specific Purpose Specification	Specific Purpose Certificate (Levels 3 to 6)
Minor Award	Component Specification	Component Certificate (Levels 1 to 6)

Award standards are thresholds, they describe standards of knowledge, skill or competence to be acquired, and where appropriate, demonstrated, by a learner before an award may be made.

Award standards will be reviewed from time to time as necessary. Minor changes may be made by the QQI executive outside the review cycle where necessary. Changes to standards are published on QQI's website. Providers with validated programmes and providers with delegated authority to make awards are responsible for monitoring relevant standards and making necessary responses to changes.

3. FET Credit

Every FET certificate and component specification includes an FET credit value (Table 1). FET credit is quantified in multiples of 5 FET credits (up to 50 hours of learner effort). Learner effort is based on the time taken by typical learners at the level of the award to achieve the learning outcomes for the award. It includes all learning time involved including: guided learning hours, self-directed learning and assessment.

Table 1: FET Credit Values

NFQ Level	Major Awards Credit Values	Default Credit Values Minor Awards	Other Permitted Minor Award Credit Values	Special Purpose and Supplemental Award Credit Value Ranges
1	20	5	10	
2	30	5	10	
3	60	10	5,20	>5 and <60
4	90	10	5,15,20	>5 and <90
5	120	15	5,10,30	>5 and <120
6	120	15	5,10,30	>5 and <120

Guide to Level

Learning outcomes at this level include a broad range of skills that require some theoretical understanding. The outcomes may relate to engaging in a specific activity, with the capacity to use the instruments and techniques relating to an occupation. They are associated with work being undertaken independently, subject to general direction.

Strand	Sub-strand	Nature of learning
Knowledge	Breadth	Broad range of knowledge
	Kind	Some theoretical concepts and abstract thinking, with significant depth in some areas.
Know How & Skill	Range	Demonstrate a broad range of specialised skills and tools
	Selectivity	Evaluate and use information to plan and develop investigative strategies and to determine solutions to varied unfamiliar problems
Competence	Context	Act in a range of varied and specific contexts, taking responsibility for the nature and quality of outputs; identify and apply skill and knowledge to a wide variety of contexts
	Role	Exercise some initiative and independence in carrying out defined activities; join and function within multiple, complex and heterogeneous groups
	Learning to Learn	Learn to take responsibility for own learning within a managed environment
	Insight	Assume full responsibility for consistency of self- understanding and behaviour
