

# **Component Specification**

## The Music Industry

## NFQ Level 5

### 5N20598

# 1. Component Details

Title	The Music Industry		
Teideal as Gaeilge	Tionscal an Cheoil		
Award Class	Minor		
Code	5N20598		
Level	5		
Credit Value	15		
Purpose	The purpose of this award is to equip the learner with the relevant knowledge, skill and competence required to work in the music industry and to adopt an entrepreneurial approach to the business, operating independently while under general direction.		
Learning Outcomes		Learners will be able to:	
	1	Examine the structure of the music industry nationally and internationally	
	2	Interpret the role and functions of key professional and official organisations in the music industry	
	3	Describe a range of business structures and associated key personnel as they apply to the music industry	
	4	Explain the range of roles within a typical band to include employer, employee, equal partners	
	5	Illustrate the steps from composing or song writing to publishing musical works	

	6	Examine the process of recording, manufacture, release, distribution and promotion of music	
	7 Examine the role of intellectual property rights in safeguarding artists rights and works		
	8	Examine recent and potential future technological developments in the production and promotion of music	
	9	Calculate resource requirements for a music industry project, to include human, financial, marketing, physical and technical resources	
	10	Negotiate the key points in agency, management, recording and publishing contracts	
	11	Prepare marketing material to include promotional, advertising, social media and digital content in relation to a particular task or project	
	12	Assess the personal, social and technical skills, values and attributes required to work effectively in the music industry	
	13	Identify opportunities for innovation and entrepreneurship in the music industry	
	14	Plan an innovative approach to a particular music related problem, task or project, to include identifying required skills, potential obstacles, strategies to handle risk and creating innovative responses to issues/problems that arise	
Assessment			
General Information	Details of FET assessment requirements are set out in Assessment Guidelines for Providers.		
	All FET assessment is criterion referenced. Successful achievement of the award is based on learners attaining the required standards of knowledge, skill or competence.		
	The techniques set out below are considered the optimum approach to assessment for this component. In exceptional circumstances providers may identify alternative assessment techniques through the provider's application for programme validation which are <b>reliable</b> and <b>valid</b> but which are more appropriate to their context.		
	Assessment of a number of components may be integrated across programmes for delivery, provided that the learning outcomes of each minor award are assessed.		

Group or team work may form part of the assessment, provided each learner's achievement is separately assessed.

All providers are required to submit an assessment plan as part of their application for programme validation. Assessment Plans will include information relating to scheduling and integration of assessment. See current FET validation guidelines at www.qqi.ie.

Assessment Techniques In order to demonstrate that they have reached the standards of knowledge, skill and competence identified in all the learning outcomes, learners are required to complete the assessment(s) below.

The assessor is responsible for devising assessment instruments (e.g. project and assignment briefs, examination papers), assessment criteria and mark sheets, consistent with the techniques identified below and FETAC's assessment requirements.

Programme validation will require providers to map each learning outcome to its associated assessment technique. See current FET validation guidelines at <u>www.qqi.ie</u>.

All learning outcomes must be assessed and achieved

Project	50%
Skills Demonstration	30%
Assignment	20%

Description

#### Project

A project is a response to a brief devised by the assessor. A project is usually carried out over an extended period of time. Projects may involve research, require investigation of a topic, issue or problem or may involve process such as a design task, a performance or practical activity or production of an artefact or event.

#### **Skills Demonstration**

A skills demonstration is used to assess a wide range of practical based learning outcomes including practical skills and knowledge. A skills demonstration will require the learner to complete a task or series of tasks that demonstrate a range of skills.

#### Assignment

	specific guidelines	an exercise carried out in response to a brief with s as to what should be included. An assignment is rration and may be carried out over a specified period	
Recognition of Prior Learning (RPL)	and experience. F to assess learners B10, see Provider included on the Re	assessed on the basis of their prior knowledge Providers must be specifically quality assured by this means. To do so they must complete 's Quality Assurance Guidelines and be egister of RPL approved providers. See RPL v.fetac.ie for further information and registration	
Grading	Pass	50% - 64%	
	Merit	65% - 79%	
	Distinction	80% - 100%	
Specific Validation Requirements	There are no spec	ific validation requirements	
Supporting Documentation	None		
Access	To access programmes leading to this award the learner should have reached the standards of knowledge, skill and competence associated with the preceding level of the National Framework of Qualifications. This may have been achieved through a formal qualification or through relevant life and work experience.		
Transfer	Successful completion of this component award enables the learner to transfer to programmes leading to other certificates where this component is a mandatory or an elective requirement.		

### 2. FET Award Standards

QQI award standards are determined within the National Framework of Qualifications (NFQ), <u>http://www.nfq-qqi.com</u>. QQI determines standards for the education and training awards that it makes itself and that are made by providers to whom it has delegated authority to make an award. Providers offering programmes leading to QQI awards **must** have their programme(s) validated in accordance with current validation policy (see <u>www.qqi.ie</u>).

Award standards are designed to be consistent with the NFQ's award classes i.e. major, special purpose, supplemental and minor awards. They are expressed in terms of **learning outcomes** i.e. concise statements of what the learner is expected to know or be able to do in order to

achieve a particular award. Learning outcomes for FET awards are contained within the associated specifications:

AWARD CLASS	STANDARDS	AWARDS
Major Award	Certificate Specification	Certificate (Levels 1 to 5) Advanced Certificate (Level 6)
Supplemental Award	Supplemental Specification	Supplemental Certificate (Level 3 to 6)
Special Purpose	Specific Purpose Specification	Specific Purpose Certificate (Levels 3 to 6)
Minor Award	Component Specification	Component Certificate (Levels 1 to 6)

Award standards are thresholds, they describe standards of knowledge, skill or competence to be acquired, and where appropriate, demonstrated, by a learner before an award may be made.

Award standards will be reviewed from time to time as necessary. Minor changes may be made by the QQI executive outside the review cycle where necessary. Changes to standards are published on QQI's website. Providers with validated programmes and providers with delegated authority to make awards are responsible for monitoring relevant standards and making necessary responses to changes.

#### 3. FET Credit

Every FET certificate and component specification includes an FET credit value (Table 1). FET credit is quantified in multiples of 5 FET credits (up to 50 hours of learner effort). Learner effort is based on the time taken by typical learners at the level of the award to achieve the learning outcomes for the award. It includes all learning time involved including: guided learning hours, self-directed learning and assessment.

#### Table 1: FET Credit Values

NFQ Level	Major Awards Credit Values	Default Credit Values Minor Awards	Other Permitted Minor Award Credit Values	Special Purpose and Supplemental Award Credit Value Ranges
1 2 3 4 5 6	20 30 60 90 120 120	5 5 10 10 15 15	10 10 5,20 5,15,20 5,10,30 5,10,30	>5 and<60 >5 and<90 >5 and <120 >5 and <120

#### **Guide to Level**

Learning outcomes at this level include a broad range of skills that require some theoretical understanding. The outcomes may relate to engaging in a specific activity, with the capacity to use the instruments and techniques relating to an occupation. They are associated with work being undertaken independently, subject to general direction.

Strand	Sub-strand	Nature of learning
Knowledge	Breadth	Broad range of knowledge
	Kind	Some theoretical concepts and abstract thinking, with significant depth in some areas.
Know How & Skill	Range	Demonstrate a broad range of specialised skills and tools
	Selectivity	Evaluate and use information to plan and develop investigative strategies and to determine solutions to varied unfamiliar problems
Competence	Context	Act in a range of varied and specific contexts, taking responsibility for the nature and quality of outputs; identify and apply skill and knowledge to a wide variety of contexts
	Role	Exercise some initiative and independence in carrying out defined activities; join and function within multiple, complex and heterogeneous groups
	Learning to Learn	Learn to take responsibility for own learning within a managed environment
	Insight	Assume full responsibility for consistency of self- understanding and behaviour
