

Component Specification

Leisure Facility Operations

NFQ Level 5

5N4667

1. Component Details

Title	Leisure Facility Operations	
Teideal as Gaeilge	Oibríochtaí Áiseanna Fóillíochta	
Award Class	Minor	
Code	5N4667	
Level	5	
Credit Value	15	
Purpose	The purpose of this award is to equip the learner with the knowledge, skill and competence necessary to implement effective facility operations and safe work practices working in an assistant capacity in a range of multi-purpose leisure facilities	
Learning Outcomes		Learners will be able to:
	1	Examine a range of pool designs and uses to include different types of pool water pollution and the contra- indications for spa pools, plunge pools and Jacuzzis
	2	Discuss a range of standard pool operations to include the mechanisms for removing pool water pollution, pool water turnover, water circulation, back washing and the maintenance of a pool area hygiene schedule
	3	Summarise the characteristics of water treatment chemicals and the hazards associated with their handling and storage
	4	Explore the range of facilities and user groups in a leisure complex

- 5 Examine the range of floor surfaces and portable and fixed equipment used in sports halls, aerobic studios and fitness suites
- 6 Explore the optimum layout of a leisure facility to include the importance of water stations, adequate ventilation and providing security for customer belongings
- 7 Examine a range of outdoor surfaces to include their pitch dimensions and field markings for a range of sports
- 8 Discuss the different types of saunas to include their standard features, temperature gauges and operational temperatures
- 9 Examine the health benefits of using a sauna, to include, the types of users that require medical clearance before use, the contra- indications for sauna usage and the guidelines for safe usage
- 10 Explore the standard features of a range of sun bed and sun-tanning tubes to include their advantages and disadvantages, contra- indications and risks
- 11 Carry out pool water tests to include an evaluation of recorded pH, chlorine levels and temperature
- 12 Design a standard maintenance and cleaning schedule for sports halls, aerobic studios, fitness suites, saunas and steam rooms
- 13 Conduct work independently in operating a sun bed, advising users on recommended exposure time, managing client training and tanning cards and assessing, advising and supervising leisure facility users
- 14 Document checks on pool equipment to include standard

maintenance, hygiene, safety and security elements

15 Demonstrate the safe manual lifting of leisure equipment to include how to safely set up, dismantle and store equipment.

Assessment

General InformationDetails of FET assessment requirements are set out in
Assessment Guidelines for Providers.

	All FET assessment is criterion r achievement of the award is bas required standards of knowledge	sed on learners attaining the
	The techniques set out below ar approach to assessment for this circumstances providers may ide techniques through the provider' validation which are reliable and appropriate to their context.	component. In exceptional entify alternative assessment 's application for programme

	The assessor is responsible for instruments (e.g. project and ass papers), assessment criteria and the techniques identified below a requirements.	signment briefs, examination d mark sheets, consistent with
	Programme validation will requir outcome to its associated asses FET validation guidelines at <u>wwy</u>	•
	All learning outcomes must be a	assessed and achieved
	Project	60%
	Skills Demonstration	40%
Description		
	Project	

A project is a response to a brief devised by the assessor. A project is usually carried out over an extended period of time. Projects may involve research, require investigation of a topic, issue or problem or may involve process such as a design task, a performance or practical activity or production of an artefact or event.

Skills Demonstration

A skills demonstration is used to assess a wide range of practical based learning outcomes including practical skills and knowledge. A skills demonstration will require the learner to complete a task or series of tasks that demonstrate a range of skills.

Recognition of Prior Learning (RPL)	Learners may be assessed on the basis of their prior knowledge and experience. Providers must be specifically quality assured to assess learners by this means. To do so they must complete B10, see Provider's Quality Assurance Guidelines and be included on the Register of RPL approved providers. See RPL Guidelines at www.fetac.ie for further information and registration details.		
Grading	Pass	50% - 64%	
	Merit	65% - 79%	
	Distinction	80% - 100%	
Specific Validation Requirements	There are no spec	ific validation requirements	
Supporting Documentation	None		
Access	To access programmes leading to this award the learner should have reached the standards of knowledge, skill and competence associated with the preceding level of the National Framework of Qualifications. This may have been achieved through a formal qualification or through relevant life and work experience.		
Transfer	Successful completion of this component award enables the learner to transfer to programmes leading to other certificates where this component is a mandatory or an elective requirement.		

2. FET Award Standards

QQI award standards are determined within the National Framework of Qualifications (NFQ), <u>http://www.nfq-qqi.com</u>. QQI determines standards for the education and training awards that it makes itself and that are made by providers to whom it has delegated authority to make an award. Providers offering programmes leading to QQI awards **must** have their programme(s) validated in accordance with current validation policy (see <u>www.qqi.ie</u>).

Award standards are designed to be consistent with the NFQ's award classes i.e. major, special purpose, supplemental and minor awards. They are expressed in terms of **learning outcomes** i.e. concise statements of what the learner is expected to know or be able to do in order to achieve a particular award. Learning outcomes for FET awards are contained within the associated specifications:

AWARD CLASS	STANDARDS	AWARDS
Major Award	Certificate Specification	Certificate (Levels 1 to 5) Advanced Certificate (Level 6)
Supplemental Award	Supplemental Specification	Supplemental Certificate (Level 3 to 6)
Special Purpose	Specific Purpose Specification	Specific Purpose Certificate (Levels 3 to 6)
Minor Award	Component Specification	Component Certificate (Levels 1 to 6)

Award standards are thresholds, they describe standards of knowledge, skill or competence to be acquired, and where appropriate, demonstrated, by a learner before an award may be made.

Award standards will be reviewed from time to time as necessary. Minor changes may be made by the QQI executive outside the review cycle where necessary. Changes to standards are published on QQI's website. Providers with validated programmes and providers with delegated authority to make awards are responsible for monitoring relevant standards and making necessary responses to changes.

3. FET Credit

Every FET certificate and component specification includes an FET credit value (Table 1). FET credit is quantified in multiples of 5 FET credits (up to 50 hours of learner effort). Learner effort is based on the time taken by typical learners at the level of the award to achieve the learning outcomes for the award. It includes all learning time involved including: guided learning hours, self-directed learning and assessment.

Table 1: FET Credit Values

NFQ Level	Major Awards Credit Values	Default Credit Values Minor Awards	Other Permitted Minor Award Credit Values	Special Purpose and Supplemental Award Credit Value Ranges
1 2 3 4 5 6	20 30 60 90 120 120	5 5 10 10 15 15	10 10 5,20 5,15,20 5,10,30 5,10,30	>5 and<60 >5 and<90 >5 and <120 >5 and <120

Guide to Level

Learning outcomes at this level include a broad range of skills that require some theoretical understanding. The outcomes may relate to engaging in a specific activity, with the capacity to use the instruments and techniques relating to an occupation. They are associated with work being undertaken independently, subject to general direction.

Strand	Sub-strand	Nature of learning
Knowledge	Breadth	Broad range of knowledge
	Kind	Some theoretical concepts and abstract thinking, with significant depth in some areas.
Know How & Skill	Range	Demonstrate a broad range of specialised skills and tools
	Selectivity	Evaluate and use information to plan and develop investigative strategies and to determine solutions to varied unfamiliar problems
Competence	Context	Act in a range of varied and specific contexts, taking responsibility for the nature and quality of outputs; identify and apply skill and knowledge to a wide variety of contexts
	Role	Exercise some initiative and independence in carrying out defined activities; join and function within multiple, complex and heterogeneous groups
	Learning to Learn	Learn to take responsibility for own learning within a managed environment
	Insight	Assume full responsibility for consistency of self- understanding and behaviour
