

# **Component Specification**

# **Fishing Gear Construction**

## NFQ Level 5

#### 5N5089

## 1. Component Details

Title Fishing Gear Construction

Teideal as Gaeilge Tógáil Trealamh Iascaireachta

Award Class Minor

**Code** 5N5089

Level 5

Credit Value 15

**Purpose** The purpose of this award is to equip the learner with the

knowledge, skill and competence to cut out and construct trawls and seines and to understand the principles of matching trawls to trawl doors and engine horsepower whilst working independently

or under supervision.

# **Learning Outcomes**

Learners will be able to:

- 1 Examine all the technical terms associated with the making of a trawl or seine
- 2 Examine the assembly procedures of single, double and treble bridles
- 3 Examine the process of stretching and shrinkage of netting and check a trawl for the stretching/shrinkage of sheets
- 4 Examine the current EU regulations relating to twine thickness and weight, mesh sizes and measurement, maximum number of meshes allowed in cod-ends and the attachment of cover bags, chafers, flappers and square mesh panels

- 5 Examine the common types of trawl doors
- 6 Calculate the common cuts and tapers used in the construction of a trawl or seine net and calculate the length of mounting ropes required
- 7 Cut out, join up all sheets and attach a flapper to current EU legislation requirements
- 8 Assemble and selvedge the net, braid in guard-band and attach lifting gear
- 9 Affix cod-end rings
- 10 Mount netting onto headline, footrope and "V" ropes
- 11 Rig net with required amount of floats
- 12 Measure and attach life-lines
- 13 Rig a set of trawl doors back-strops, equalisers and pennants
- Measure and calculate approximate door spread whilst towing
- 15 Read and interpret a net plan or drawing
- Measure and splice headline and footrope, mark off head and foot, prepare net and ropes/wires for mounting
- 17 Assemble and rig a sample clean or hard ground footrope with a grassrope, rubber discs, rock hoppers or bobbins
- 18 Carry out adjustments to trawl doors and calculate the ideal angle of attack (IAA) of trawl doors
- 19 Match trawl doors to vessel horsepower, draft and trawl sizes.

## Assessment

#### **General Information**

Details of FET assessment requirements are set out in Assessment Guidelines for Providers.

All FET assessment is criterion referenced. Successful achievement of the award is based on learners attaining the required standards of knowledge, skill or competence.

The techniques set out below are considered the optimum approach to assessment for this component. In exceptional circumstances providers may identify alternative assessment techniques through the provider's application for programme

validation which are **reliable** and **valid** but which are more appropriate to their context.

Assessment of a number of components may be integrated across programmes for delivery, provided that the learning outcomes of each minor award are assessed.

Group or team work may form part of the assessment, provided each learner's achievement is separately assessed.

All providers are required to submit an assessment plan as part of their application for programme validation. Assessment Plans will include information relating to scheduling and integration of assessment. See current FET validation guidelines at <a href="https://www.qqi.ie">www.qqi.ie</a>.

### **Assessment Techniques**

In order to demonstrate that they have reached the standards of knowledge, skill and competence identified in all the learning outcomes, learners are required to complete the assessment(s) below.

The assessor is responsible for devising assessment instruments (e.g. project and assignment briefs, examination papers), assessment criteria and mark sheets, consistent with the techniques identified below and FETAC's assessment requirements.

Programme validation will require providers to map each learning outcome to its associated assessment technique. See current FET validation guidelines at <a href="https://www.qqi.ie">www.qqi.ie</a>.

All learning outcomes must be assessed and achieved

Portfolio / Collection of Work 80% Examination - Theory 20%

## **Description**

## Portfolio / Collection of Work

A portfolio or collection of work is a collection and/or selection of pieces of work produced by the learner over a period of time that demonstrates achievement of a range of learning outcomes. The collection may be self-generated or may be generated in response to a particular brief or tasks/activities devised by the assessor.

# **Examination - Theory**

An examination provides a means of assessing a learner's ability to recall and apply knowledge, skills and understanding within a set period of time and under clearly specified conditions.

A theory-based examination assesses the ability to recall, apply and understand specific theory and knowledge.

# Recognition of Prior Learning (RPL)

Learners may be assessed on the basis of their prior knowledge and experience. Providers must be specifically quality assured to assess learners by this means. To do so they must complete B10, see Provider's Quality Assurance Guidelines and be included on the Register of RPL approved providers. See RPL Guidelines at <a href="https://www.fetac.ie">www.fetac.ie</a> for further information and registration details.

**Grading** Pass 50% - 64%

Merit 65% - 79%

Distinction 80% - 100%

Specific Validation Requirements

The provider must have all of the following in place to offer this

award

Adequate supply of netting and associated ropes, wires and

chandlery

Supporting Documentation

None

**Access**To access programmes leading to this award the learner should

have reached the standards of knowledge, skill and competence associated with the preceding level of the National Framework of Qualifications. This may have been achieved through a formal qualification or through relevant life and work experience.

**Transfer** Successful completion of this component award enables the

learner to transfer to programmes leading to other certificates where this component is a mandatory or an elective requirement.

#### 2. FET Award Standards

QQI award standards are determined within the National Framework of Qualifications (NFQ), <a href="http://www.nfq-qqi.com">http://www.nfq-qqi.com</a>. QQI determines standards for the education and training awards that it makes itself and that are made by providers to whom it has delegated authority to make an award. Providers offering programmes leading to QQI awards **must** have their programme(s) validated in accordance with current validation policy (see <a href="https://www.nqi.ie">www.nqi.ie</a>).

Award standards are designed to be consistent with the NFQ's award classes i.e. major, special purpose, supplemental and minor awards. They are expressed in terms of **learning outcomes** 

i.e. concise statements of what the learner is expected to know or be able to do in order to achieve a particular award. Learning outcomes for FET awards are contained within the associated specifications:

AWARD CLASS	STANDARDS	AWARDS
Major Award	Certificate Specification	Certificate (Levels 1 to 5) Advanced Certificate (Level 6)
Supplemental Award	Supplemental Specification	Supplemental Certificate (Level 3 to 6)
Special Purpose	Specific Purpose Specification	Specific Purpose Certificate (Levels 3 to 6)
Minor Award	Component Specification	Component Certificate (Levels 1 to 6)

Award standards are thresholds, they describe standards of knowledge, skill or competence to be acquired, and where appropriate, demonstrated, by a learner before an award may be made.

Award standards will be reviewed from time to time as necessary. Minor changes may be made by the QQI executive outside the review cycle where necessary. Changes to standards are published on QQI's website. Providers with validated programmes and providers with delegated authority to make awards are responsible for monitoring relevant standards and making necessary responses to changes.

#### 3. FET Credit

Every FET certificate and component specification includes an FET credit value (Table 1). FET credit is quantified in multiples of 5 FET credits (up to 50 hours of learner effort). Learner effort is based on the time taken by typical learners at the level of the award to achieve the learning outcomes for the award. It includes all learning time involved including: guided learning hours, self-directed learning and assessment.

**Table 1: FET Credit Values** 

NFQ Level	Major Awards Credit Values	Default Credit Values Minor Awards	Other Permitted Minor Award Credit Values	Special Purpose and Supplemental Award Credit Value Ranges
1	20	5	10	
2	30	5	10	
3	60	10	5,20	>5 and<60
4	90	10	5,15,20	>5 and<90
5	120	15	5,10,30	>5 and <120
6	120	15	5,10,30	>5 and <120

#### **Guide to Level**

Learning outcomes at this level include a broad range of skills that require some theoretical understanding. The outcomes may relate to engaging in a specific activity, with the capacity to

use the instruments and techniques relating to an occupation. They are associated with work being undertaken independently, subject to general direction.

Strand	Sub-strand	Nature of learning		
Knowledge	Breadth	Broad range of knowledge		
	Kind	Some theoretical concepts and abstract thinking, with significant depth in some areas.		
Know How & Skill	Range	Demonstrate a broad range of specialised skills and tools		
	Selectivity	Evaluate and use information to plan and develop investigative strategies and to determine solutions to varied unfamiliar problems		
Competence	Context	Act in a range of varied and specific contexts, taking responsibility for the nature and quality of outputs; identify and apply skill and knowledge to a wide variety of contexts		
	Role	Exercise some initiative and independence in carrying out defined activities; join and function within multiple, complex and heterogeneous groups		
	Learning to Learn	Learn to take responsibility for own learning within a managed environment		
	Insight	Assume full responsibility for consistency of self- understanding and behaviour
