

Component Specification

TV and Film Acting

NFQ Level 5

5N6046

1. Component Details

| Title | TV and Film Acting | |
|--------------------|--|--|
| Teideal as Gaeilge | Aisteoireacht Teilifíse agus Scannán | |
| Award Class | Minor | |
| Code | 5N6046 | |
| Level | 5 | |
| Credit Value | 15 | |
| Purpose | The purpose of this award is to equip the learner with the knowledge, skill and competence to enable a practical understanding and appreciation of the role of professional acting in television and film. | |
| Learning Outcomes | Learners will be able to: | |
| | 1 | Define the roles of practitioners in film and television industries working 'in front of' and 'behind' camera |
| | 2 | Identify artistic and technical aspects of film and television production |
| | 3 | Outline national and international historical and cultural events which influence the screen industries |
| | 4 | Generate a story board to include casting, shots and shot composition |
| | 5 | Demonstrate imaginative understanding of how elements to include character development and scene awareness affect the production structure |

| | 6 | Integrate technical, intellectual and emotional faculties into screen performances such as commercials, television and film |
|-----------------------|--------------------------------|---|
| | 7 | Maintain a character's physical and emotional continuity over the course of production in recorded media discipline |
| | 8 | Demonstrate ability to adapt performance to context such as in studio or on location |
| | 9 | Assume responsibility for planning and performance in a range of roles in a variety of recorded media |
| | 10 | Analyze for performance the elements of film and television texts including scripts, storyboards and commercial copy |
| | 11 | Demonstrate a broad knowledge of industry demands and new technologies. |
| Assessment | | |
| General Information | | ils of FET assessment requirements are set out in essment Guidelines for Providers. |
| | achie | ET assessment is criterion referenced. Successful evement of the award is based on learners attaining the ired standards of knowledge, skill or competence. |
| | appr circu tech valid | techniques set out below are considered the optimum oach to assessment for this component. In exceptional mstances providers may identify alternative assessment niques through the provider's application for programme ation which are reliable and valid but which are more opriate to their context. |
| | acros | essment of a number of components may be integrated ss programmes for delivery, provided that the learning omes of each minor award are assessed. |
| | | p or team work may form part of the assessment, provided learner's achievement is separately assessed. |
| | of the will in asse | roviders are required to submit an assessment plan as part eir application for programme validation. Assessment Plans include information relating to scheduling and integration of ssment. See current FET validation guidelines at <u>aqqi.ie</u> . |
| Assessment Techniques | | der to demonstrate that they have reached the standards of vledge, skill and competence identified in all the learning |

outcomes, learners are required to complete the assessment(s) below.

The assessor is responsible for devising assessment instruments (e.g. project and assignment briefs, examination papers), assessment criteria and mark sheets, consistent with the techniques identified below and FETAC's assessment requirements.

Programme validation will require providers to map each learning outcome to its associated assessment technique. See current FET validation guidelines at <u>www.qqi.ie</u>.

All learning outcomes must be assessed and achieved

| Project | 60% |
|----------------------|-----|
| Skills Demonstration | 40% |

Description

Project

A project is a response to a brief devised by the assessor. A project is usually carried out over an extended period of time. Projects may involve research, require investigation of a topic, issue or problem or may involve process such as a design task, a performance or practical activity or production of an artefact or event.

Skills Demonstration

A skills demonstration is used to assess a wide range of practical based learning outcomes including practical skills and knowledge. A skills demonstration will require the learner to complete a task or series of tasks that demonstrate a range of skills.

Recognition of Prior Learning (RPL) Learners may be assessed on the basis of their prior knowledge and experience. Providers must be specifically quality assured to assess learners by this means. To do so they must complete B10, see Provider's Quality Assurance Guidelines and be included on the Register of RPL approved providers. See RPL Guidelines at www.fetac.ie for further information and registration details.

| Grading | Pass | 50% - 64% | |
|---------|-------------|------------|--|
| | Merit | 65% - 79% | |
| | Distinction | 80% - 100% | |

| Specific Validation Requirements | The learner demonstrates the ability to differentiate between requirements for differing media |
|-------------------------------------|---|
| Supporting Documentation | None |
| Access | To access programmes leading to this award the learner should have reached the standards of knowledge, skill and competence associated with the preceding level of the National Framework of Qualifications. This may have been achieved through a formal qualification or through relevant life and work experience. |
| Transfer | Successful completion of this component award enables the learner to transfer to programmes leading to other certificates where this component is a mandatory or an elective requirement. |

2. FET Award Standards

QQI award standards are determined within the National Framework of Qualifications (NFQ), <u>http://www.nfq-qqi.com</u>. QQI determines standards for the education and training awards that it makes itself and that are made by providers to whom it has delegated authority to make an award. Providers offering programmes leading to QQI awards **must** have their programme(s) validated in accordance with current validation policy (see <u>www.qqi.ie</u>).

Award standards are designed to be consistent with the NFQ's award classes i.e. major, special purpose, supplemental and minor awards. They are expressed in terms of **learning outcomes** i.e. concise statements of what the learner is expected to know or be able to do in order to achieve a particular award. Learning outcomes for FET awards are contained within the associated specifications:

| AWARD CLASS | STANDARDS | AWARDS |
|--------------------|--------------------------------|---|
| Major Award | Certificate Specification | Certificate (Levels 1 to 5) Advanced Certificate (Level 6) |
| Supplemental Award | Supplemental Specification | Supplemental Certificate (Level 3 to 6) |
| Special Purpose | Specific Purpose Specification | Specific Purpose Certificate (Levels 3 to 6) |
| Minor Award | Component Specification | Component Certificate (Levels 1 to 6) |

Award standards are thresholds, they describe standards of knowledge, skill or competence to be acquired, and where appropriate, demonstrated, by a learner before an award may be made.

Award standards will be reviewed from time to time as necessary. Minor changes may be made by the QQI executive outside the review cycle where necessary. Changes to standards are published on QQI's website. Providers with validated programmes and providers with delegated authority to make awards are responsible for monitoring relevant standards and making necessary responses to changes.

3. FET Credit

Every FET certificate and component specification includes an FET credit value (Table 1). FET credit is quantified in multiples of 5 FET credits (up to 50 hours of learner effort). Learner effort is based on the time taken by typical learners at the level of the award to achieve the learning outcomes for the award. It includes all learning time involved including: guided learning hours, self-directed learning and assessment.

Table 1: FET Credit Values

| NFQ Level | Major Awards Credit Values | Default Credit Values Minor Awards | Other Permitted Minor Award Credit Values | Special Purpose and Supplemental Award Credit Value Ranges |
|------------------|-------------------------------|--|---|--|
| 1 2 3 4 | 20 30 60 90 | 5 5 10 10 | 10 10 5,20 5,15,20 | >5 and<60 >5 and<90 |
| 5 6 | 120 120 | 15 15 | 5,10,30 5,10,30 | >5 and <120 >5 and <120 |

Guide to Level

Learning outcomes at this level include a broad range of skills that require some theoretical understanding. The outcomes may relate to engaging in a specific activity, with the capacity to use the instruments and techniques relating to an occupation. They are associated with work being undertaken independently, subject to general direction.

| Strand | Sub-strand | Nature of learning |
|---------------------|----------------------|---|
| Knowledge | Breadth | Broad range of knowledge |
| | Kind | Some theoretical concepts and abstract thinking, with significant depth in some areas. |
| Know How & Skill | Range | Demonstrate a broad range of specialised skills and tools |
| | Selectivity | Evaluate and use information to plan and develop investigative strategies and to determine solutions to varied unfamiliar problems |
| Competence | Context | Act in a range of varied and specific contexts, taking responsibility for the nature and quality of outputs; identify and apply skill and knowledge to a wide variety of contexts |
| | Role | Exercise some initiative and independence in carrying out defined activities; join and function within multiple, complex and heterogeneous groups |
| | Learning to Learn | Learn to take responsibility for own learning within a managed environment |
| | Insight | Assume full responsibility for consistency of self- understanding and behaviour |
