

# **Component Specification**

# Continuous Improvement for Supervisory Management in Manufacturing

## NFQ Level 6

### 6N0722

1. Component Details

Title	Continuous Improvement for Supervisory Management in Manufacturing	
Teideal as Gaeilge	Feabhsú Leanúnach don Bhainistíocht Mhaoirseachta sa Déantúsaíocht	
Award Class	Minor	
Code	6N0722	
Level	6	
Credit Value	15	
Purpose	The purpose of this award is to equip the learner with the knowledge, skill and competence to lead a Continuous Improvement ('Lean and Six Sigma') project while working as a supervisor in manufacturing.	
Learning Outcomes		Learners will be able to:
	1	Understand the concepts of Lean and Six Sigma thinking and continuous improvement activities as they apply in the manufacturing sector.
	2	Identify the potential benefits and challenges of Lean and Six Sigma methodologies
	3	Analyse a range of Continuous Improvement tools for Lean and Six Sigma implementation projects
	4	Demonstrate an appreciation of Statistical Process Control (SPC) and its application in data analysis in manufacturing

	5	Develop an effective Continuous Improvement project plan
	6	Lead a Continuous Improvement project in their own area of responsibility
	7	Apply Continuous Improvement methodologies to maximise project team effectiveness
	8	Apply Continuous Improvement methodologies to maximise project team effectiveness.
Assessment		
General Information		ails of FET assessment requirements are set out in essent Guidelines for Providers.
	achi	ET assessment is criterion referenced. Successful evement of the award is based on learners attaining the nired standards of knowledge, skill or competence.
	appi circu tech valic	techniques set out below are considered the optimum roach to assessment for this component. In exceptional umstances providers may identify alternative assessment niques through the provider's application for programme dation which are <b>reliable</b> and <b>valid</b> but which are more ropriate to their context.
	acro	essment of a number of components may be integrated ass programmes for delivery, provided that the learning comes of each minor award are assessed.
		up or team work may form part of the assessment, provided n learner's achievement is separately assessed.
	of th will i asse	providers are required to submit an assessment plan as part beir application for programme validation. Assessment Plans nclude information relating to scheduling and integration of essment. See current FET validation guidelines at v.qqi.ie.
Assessment Techniques	kno	rder to demonstrate that they have reached the standards of wledge, skill and competence identified in all the learning comes, learners are required to complete the assessment(s) w.
	instr pape the t	assessor is responsible for devising assessment ruments (e.g. project and assignment briefs, examination ers), assessment criteria and mark sheets, consistent with techniques identified below and FETAC's assessment irrements.

	Programme validation will require providers to map each learning outcome to its associated assessment technique. See current FET validation guidelines at <u>www.qqi.ie</u> . All learning outcomes <b>must</b> be assessed and achieved		
Description	Skills Demonstrat Examination - The		60% 40%
	Skills Demonstra	ation	
	based learning ou	itcomes includ on will require	assess a wide range of practical ing practical skills and knowledge. A the learner to complete a task or series ge of skills.
	Examination - Theory		
		nowledge, skil	ns of assessing a learner's ability to Is and understanding within a set period ed conditions.
	A theory-based e. understand speci		sesses the ability to recall, apply and knowledge.
Recognition of Prior Learning (RPL)	Learners may be assessed on the basis of their prior knowledge and experience. Providers must be specifically quality assured to assess learners by this means. To do so they must complete B10, see Provider's Quality Assurance Guidelines and be included on the Register of RPL approved providers. See RPL Guidelines at www.fetac.ie for further information and registration details.		
Grading	Pass	50% - 64%	
	Merit	65% - 79%	
	Distinction	80% - 100%	
Specific Validation Requirements	There are no spec	cific validation	requirements
Supporting Documentation	None		
Access	To access programmes leading to this award the learner should have reached the standards of knowledge, skill and competence associated with the preceding level of the National Framework of		

	Qualifications. This may have been achieved through a formal qualification or through relevant life and work experience.
Transfer	Successful completion of this component award enables the learner to transfer to programmes leading to other certificates where this component is a mandatory or an elective requirement.

#### 2. FET Award Standards

QQI award standards are determined within the National Framework of Qualifications (NFQ), <u>http://www.nfq-qqi.com</u>. QQI determines standards for the education and training awards that it makes itself and that are made by providers to whom it has delegated authority to make an award. Providers offering programmes leading to QQI awards **must** have their programme(s) validated in accordance with current validation policy (see <u>www.qqi.ie</u>).

Award standards are designed to be consistent with the NFQ's award classes i.e. major, special purpose, supplemental and minor awards. They are expressed in terms of **learning outcomes** i.e. concise statements of what the learner is expected to know or be able to do in order to achieve a particular award. Learning outcomes for FET awards are contained within the associated specifications:

AWARD CLASS	STANDARDS	AWARDS
Major Award	Certificate Specification	Certificate (Levels 1 to 5) Advanced Certificate (Level 6)
Supplemental Award	Supplemental Specification	Supplemental Certificate (Level 3 to 6)
Special Purpose	Specific Purpose Specification	Specific Purpose Certificate (Levels 3 to 6)
Minor Award	Component Specification	Component Certificate (Levels 1 to 6)

Award standards are thresholds, they describe standards of knowledge, skill or competence to be acquired, and where appropriate, demonstrated, by a learner before an award may be made.

Award standards will be reviewed from time to time as necessary. Minor changes may be made by the QQI executive outside the review cycle where necessary. Changes to standards are published on QQI's website. Providers with validated programmes and providers with delegated authority to make awards are responsible for monitoring relevant standards and making necessary responses to changes.

#### 3. FET Credit

Every FET certificate and component specification includes an FET credit value (Table 1). FET credit is quantified in multiples of 5 FET credits (up to 50 hours of learner effort). Learner effort is based on the time taken by typical learners at the level of the award to achieve the learning outcomes for the award. It includes all learning time involved including: guided learning hours, self-directed learning and assessment.

#### Table 1: FET Credit Values

NFQ Level	Major Awards Credit Values	Default Credit Values Minor Awards	Other Permitted Minor Award Credit Values	Special Purpose and Supplemental Award Credit Value Ranges
1	20	5	10	
2	30	5	10	
3	60	10	5,20	>5 and<60
4	90	10	5,15,20	>5 and<90
5	120	15	5,10,30	>5 and <120
6	120	15	5,10,30	>5 and <120

#### **Guide to Level**

Learning outcomes at this level include a comprehensive range of skills which may be vocationally-specific and/or of a general supervisory nature, and require detailed theoretical understanding. The outcomes also provide for a particular focus on learning skills. The outcomes relate to working in a generally autonomous way to assume design and/or management and/or administrative responsibilities. Occupations at this level would include higher craft, junior technician and supervisor.

Strand	Sub-strand	Nature of learning
Knowledge	Breadth	Specialised knowledge of a broad area
	Kind	Some theoretical concepts and abstract thinking, with significant underpinning theory
Know How & Skill	Range	Demonstrate a comprehensive range of specialised skills and tools
	Selectivity	Formulate responses to well defined abstract problems
Competence	Context	Act in a range of varied and specific contexts involving creative and non-routine activities; transfer and apply theoretical concepts and/or technical or creative skills to a range of contexts
	Role	Exercise substantial personal autonomy and often take responsibility for the work of others and/or for the allocation of resources; form and function within, multiple and complex heterogeneous groups.
	Learning to Learn	Learn to evaluate own learning and identify needs within a structured learning environment; assist others in identifying learning needs
	Insight	Express an internalised, personal world view, reflecting engagement with others.
