

Component Specification

Training Delivery and Evaluation

NFQ Level 6

6N3326

1. Component Details

Title	Training Delivery and Evaluation	
Teideal as Gaeilge	Seachadadh Oiliúna agus Meastóireacht	
Award Class	Minor	
Code	6N3	326
Level	6	
Credit Value	15	
Purpose	The purpose of this award is to equip the learner with the knowledge, skill and competence to deliver, assess and evaluate a training and development intervention.	
Learning Outcomes	Learners will be able to:	
	1	Outline the concepts and theories underlying the delivery and evaluation of training interventions
	2	Explore the elements which impact on the effectiveness of a training session to include, the learning environment, the trainer, learning methodologies and the group dynamics of participants
	3	Demonstrate an awareness of a range of issues to include equality, diversity and disability in the context of current legislation with regard to training provision
	4	Appraise a range of evaluation models, approaches, tools and techniques used in the evaluation and monitoring of a training and development intervention

	5	Deliver appropriate training content and materials using a range of training aids
	6	Formulate appropriate evaluation tools, techniques and approaches for a training session to determine whether or not training needs were met and objectives fulfilled
	7	Provide constructive feedback to participants in relation to training intervention
	8	Apply a comprehensive range of specialised training delivery and evaluation skills in the delivery of an appropriate training intervention
	9	Devise a training evaluation process to include the identification of key stakeholders, feedback from the trainee, challenges within the process and the conduct or methodology of the evaluation
	10	Select from a range of evaluation tools, techniques and approaches for a training session to determine whether or not training needs were met and objectives fulfilled
	11	Report on a training and development evaluation to include the identification of areas of success and of improvement opportunities.
Assessment		
General Information		tails of FET assessment requirements are set out in sessment Guidelines for Providers.
	ach	FET assessment is criterion referenced. Successful nievement of the award is based on learners attaining the uired standards of knowledge, skill or competence.
	The techniques set out below are considered the optimum approach to assessment for this component. In exceptional circumstances providers may identify alternative assessment techniques through the provider's application for programme validation which are reliable and valid but which are more appropriate to their context.	
	acr	sessment of a number of components may be integrated oss programmes for delivery, provided that the learning comes of each minor award are assessed.
		oup or team work may form part of the assessment, provided ch learner's achievement is separately assessed.
		providers are required to submit an assessment plan as part heir application for programme validation. Assessment Plans

will include information relating to scheduling and integration of assessment. See current FET validation guidelines at <u>www.qqi.ie</u>.

Assessment Techniques In order to demonstrate that they have reached the standards of knowledge, skill and competence identified in all the learning outcomes, learners are required to complete the assessment(s) below.

The assessor is responsible for devising assessment instruments (e.g. project and assignment briefs, examination papers), assessment criteria and mark sheets, consistent with the techniques identified below and FETAC's assessment requirements.

Programme validation will require providers to map each learning outcome to its associated assessment technique. See current FET validation guidelines at <u>www.qqi.ie</u>.

All learning outcomes must be assessed and achieved

Project	40%
Skills Demonstration	40%
Learner Record	20%

Description

Project

A project is a response to a brief devised by the assessor. A project is usually carried out over an extended period of time. Projects may involve research, require investigation of a topic, issue or problem or may involve process such as a design task, a performance or practical activity or production of an artefact or event.

Skills Demonstration

A skills demonstration is used to assess a wide range of practical based learning outcomes including practical skills and knowledge. A skills demonstration will require the learner to complete a task or series of tasks that demonstrate a range of skills.

Learner Record

A learner record is the learner's self-reported and self-reflective record in which he/she describes specific learning experiences, activities, responses and skills acquired.

Recognition of Prior Learning (RPL)	Learners may be assessed on the basis of their prior knowledge and experience. Providers must be specifically quality assured to assess learners by this means. To do so they must complete B10, see Provider's Quality Assurance Guidelines and be included on the Register of RPL approved providers. See RPL Guidelines at www.fetac.ie for further information and registration details.		
Grading	Pass	50% - 64%	
	Merit	65% - 79%	
	Distinction	80% - 100%	
Specific Validation Requirements	·	cific validation requirements	
Supporting Documentation	None		
Access	To access programmes leading to this award the learner should have reached the standards of knowledge, skill and competence associated with the preceding level of the National Framework of Qualifications. This may have been achieved through a formal qualification or through relevant life and work experience.		
Transfer	Successful completion of this component award enables the learner to transfer to programmes leading to other certificates where this component is a mandatory or an elective requirement.		

2. FET Award Standards

QQI award standards are determined within the National Framework of Qualifications (NFQ), <u>http://www.nfq-qqi.com</u>. QQI determines standards for the education and training awards that it makes itself and that are made by providers to whom it has delegated authority to make an award. Providers offering programmes leading to QQI awards **must** have their programme(s) validated in accordance with current validation policy (see <u>www.qqi.ie</u>).

Award standards are designed to be consistent with the NFQ's award classes i.e. major, special purpose, supplemental and minor awards. They are expressed in terms of **learning outcomes** i.e. concise statements of what the learner is expected to know or be able to do in order to achieve a particular award. Learning outcomes for FET awards are contained within the associated specifications:

AWARD CLASS	STANDARDS	AWARDS
Major Award	Certificate Specification	Certificate (Levels 1 to 5) Advanced Certificate (Level 6)

Supplemental Award	Supplemental Specification	Supplemental Certificate (Level 3 to 6)
Special Purpose	Specific Purpose Specification	Specific Purpose Certificate (Levels 3 to 6)
Minor Award	Component Specification	Component Certificate (Levels 1 to 6)

Award standards are thresholds, they describe standards of knowledge, skill or competence to be acquired, and where appropriate, demonstrated, by a learner before an award may be made.

Award standards will be reviewed from time to time as necessary. Minor changes may be made by the QQI executive outside the review cycle where necessary. Changes to standards are published on QQI's website. Providers with validated programmes and providers with delegated authority to make awards are responsible for monitoring relevant standards and making necessary responses to changes.

3. FET Credit

Every FET certificate and component specification includes an FET credit value (Table 1). FET credit is quantified in multiples of 5 FET credits (up to 50 hours of learner effort). Learner effort is based on the time taken by typical learners at the level of the award to achieve the learning outcomes for the award. It includes all learning time involved including: guided learning hours, self-directed learning and assessment.

Table 1: FET Credit Values

NFQ Level	Major Awards Credit Values	Default Credit Values Minor Awards	Other Permitted Minor Award Credit Values	Special Purpose and Supplemental Award Credit Value Ranges
1 2	20 30	5 5	10 10	
3	60	10	5,20	>5 and<60
4	90	10	5,15,20	>5 and<90
5	120	15	5,10,30	>5 and <120
	-			
6	120	15	5,10,30	>5 and <120

Guide to Level

Learning outcomes at this level include a comprehensive range of skills which may be vocationally-specific and/or of a general supervisory nature, and require detailed theoretical understanding. The outcomes also provide for a particular focus on learning skills. The outcomes relate to working in a generally autonomous way to assume design and/or management and/or administrative responsibilities. Occupations at this level would include higher craft, junior technician and supervisor.

Strand	Sub-strand	Nature of learning
Knowledge	Breadth	Specialised knowledge of a broad area

	Kind	Some theoretical concepts and abstract thinking, with significant underpinning theory	
Know How & Skill	Range	Demonstrate a comprehensive range of specialised skills and tools	
	Selectivity	Formulate responses to well defined abstract problems	
Competence	Context	Act in a range of varied and specific contexts involving creative and non-routine activities; transfer and apply theoretical concepts and/or technical or creative skills to a range of contexts	
	Role	Exercise substantial personal autonomy and often take responsibility for the work of others and/or for the allocation of resources; form and function within, multiple and complex heterogeneous groups.	
	Learning to Learn	Learn to evaluate own learning and identify needs within a structured learning environment; assist others in identifying learning needs	
	Insight	Express an internalised, personal world view, reflecting engagement with others.
