

Component Specification

Harvester Operations Clearfell

NFQ Level 6

6N3412

1. Component Details

Title	Harvester Operations Clearfell	
Teideal as Gaeilge	Oibríochtaí Buainteoirí Glanta	
Award Class	Mino	r
Code	6N3412	
Level	6	
Credit Value	15	
Purpose	The purpose of this award is to equip the learner with the knowledge, skill and competence to plan and operate a forwarder and harvester in a clearfell forestry operation.	
Learning Outcomes	Learners will be able to:	
	1	Explain the principles of internal combustion engines, vehicle electrical systems, hydraulic systems and harvester heads including petrol diesel engines, 12 and 24 volt electrical systems and hydraulic system components and controls
	2	Indicate the steps in harvester hydraulic system service to include change of hydraulic oil and filters, inspection of hoses and joints, and identify replacement parts and part numbers from a maintenance manual
	3	Develop a clearfell harvest plan taking account of environmental protection, economic output, efficiency, safety, timber assortment and specification

4	Explain forestry management taking account of sustainable forestry management, environmental protection, economic activity and timber stage management
5	Recognise grades of standing timber to include classification into industry sizes
0	Internet and communicate emergency action plane

- 6 Interpret and communicate emergency action plans, harvest plans, specifications and management of cut timber to forwarder operators
- 7 Carry out service inspections on forwarder and harvester to include daily and scheduled inspections as per manufacturer's instructions including harvester head inspection
- 8 Carry out service maintenance tasks to include engine oil and filters change, hydraulic oil and hydraulic system inspection
- 9 Prepare a forwarder and harvester for work to include programming to optimise output, set up harvester head timber measurement system, harvest communications technologies and configure harvester to optimise output
- 10 Carry out risk assessment to include pre-operation, continual monitoring during operation and post operation assessment
- 11 Operate harvester in a clearfell situation according to a harvesting plan and required specifications including timber measurement, communication and organisation of harvesting operation with forwarder operator.

Assessment

General Information Details of FET assessment requirements are set out in Assessment Guidelines for Providers.

All FET assessment is criterion referenced. Successful achievement of the award is based on learners attaining the required standards of knowledge, skill or competence.

The techniques set out below are considered the optimum approach to assessment for this component. In exceptional circumstances providers may identify alternative assessment techniques through the provider's application for programme validation which are **reliable** and **valid** but which are more appropriate to their context.

	Assessment of a number of com across programmes for delivery, outcomes of each minor award a	, provided that the learning	
	Group or team work may form peeach learner's achievement is se	-

	Examination - Theory	20%	
Description			
	Skills Demonstration		
	based learning outcomes includ	o assess a wide range of practical ling practical skills and knowledge. A the learner to complete a task or series	

Examination - Interview Style

of tasks that demonstrate a range of skills.

An examination provides a means of assessing a learner's ability to recall and apply knowledge, skills and understanding within a set period of time and under clearly specified conditions. An interview style examination assesses assessing learning through verbal questioning, one-to-one or in a group.

Examination - Theory

An examination provides a means of assessing a learner's ability to recall and apply knowledge, skills and understanding within a set period of time and under clearly specified conditions.

A theory-based examination assesses the ability to recall, apply and understand specific theory and knowledge.

Recognition of Prior Learning (RPL)	Learners may be assessed on the basis of their prior knowledge and experience. Providers must be specifically quality assured to assess learners by this means. To do so they must complete B10, see Provider's Quality Assurance Guidelines and be included on the Register of RPL approved providers. See RPL Guidelines at www.fetac.ie for further information and registration details.

Grading	Pass	50% - 64%
	Merit	65% - 79%
	Distinction	80% - 100%

Specific Validation Requirements	There are no specific validation requirements
Supporting Documentation	None
Access	To access programmes leading to this award the learner should have reached the standards of knowledge, skill and competence associated with the preceding level of the National Framework of Qualifications. This may have been achieved through a formal qualification or through relevant life and work experience.
Transfer	Successful completion of this component award enables the learner to transfer to programmes leading to other certificates where this component is a mandatory or an elective requirement.

2. FET Award Standards

QQI award standards are determined within the National Framework of Qualifications (NFQ), <u>http://www.nfq-qqi.com</u>. QQI determines standards for the education and training awards that it makes itself and that are made by providers to whom it has delegated authority to make an

award. Providers offering programmes leading to QQI awards **must** have their programme(s) validated in accordance with current validation policy (see <u>www.qqi.ie</u>).

Award standards are designed to be consistent with the NFQ's award classes i.e. major, special purpose, supplemental and minor awards. They are expressed in terms of **learning outcomes** i.e. concise statements of what the learner is expected to know or be able to do in order to achieve a particular award. Learning outcomes for FET awards are contained within the associated specifications:

AWARD CLASS	STANDARDS	AWARDS
Major Award	Certificate Specification	Certificate (Levels 1 to 5) Advanced Certificate (Level 6)
Supplemental Award	Supplemental Specification	Supplemental Certificate (Level 3 to 6)
Special Purpose	Specific Purpose Specification	Specific Purpose Certificate (Levels 3 to 6)
Minor Award	Component Specification	Component Certificate (Levels 1 to 6)

Award standards are thresholds, they describe standards of knowledge, skill or competence to be acquired, and where appropriate, demonstrated, by a learner before an award may be made.

Award standards will be reviewed from time to time as necessary. Minor changes may be made by the QQI executive outside the review cycle where necessary. Changes to standards are published on QQI's website. Providers with validated programmes and providers with delegated authority to make awards are responsible for monitoring relevant standards and making necessary responses to changes.

3. FET Credit

Every FET certificate and component specification includes an FET credit value (Table 1). FET credit is quantified in multiples of 5 FET credits (up to 50 hours of learner effort). Learner effort is based on the time taken by typical learners at the level of the award to achieve the learning outcomes for the award. It includes all learning time involved including: guided learning hours, self-directed learning and assessment.

Table 1: FET Credit Values

NFQ Level	Major Awards Credit Values	Default Credit Values Minor Awards	Other Permitted Minor Award Credit Values	Special Purpose and Supplemental Award Credit Value Ranges
1	20	5	10	
2	30	5	10	
3	60	10	5,20	>5 and<60
4	90	10	5,15,20	>5 and<90
5	120	15	5,10,30	>5 and <120
6	120	15	5,10,30	>5 and <120

Guide to Level

Learning outcomes at this level include a comprehensive range of skills which may be vocationally-specific and/or of a general supervisory nature, and require detailed theoretical understanding. The outcomes also provide for a particular focus on learning skills. The outcomes relate to working in a generally autonomous way to assume design and/or management and/or administrative responsibilities. Occupations at this level would include higher craft, junior technician and supervisor.

Strand	Sub-strand	Nature of learning
Knowledge	Breadth	Specialised knowledge of a broad area
	Kind	Some theoretical concepts and abstract thinking, with significant underpinning theory
Know How & Skill	Range	Demonstrate a comprehensive range of specialised skills and tools
	Selectivity	Formulate responses to well defined abstract problems
Competence	Context	Act in a range of varied and specific contexts involving creative and non-routine activities; transfer and apply theoretical concepts and/or technical or creative skills to a range of contexts
	Role	Exercise substantial personal autonomy and often take responsibility for the work of others and/or for the allocation of resources; form and function within, multiple and complex heterogeneous groups.
	Learning to Learn	Learn to evaluate own learning and identify needs within a structured learning environment; assist others in identifying learning needs
	Insight	Express an internalised, personal world view, reflecting engagement with others.
