

Component Specification

Gerontology

NFQ Level 6

6N3748

1. Component Details

Title	Gerontology	
Teideal as Gaeilge	Seaneolaíocht	
Award Class	Minor	
Code	6N37	748
Level	6	
Credit Value	15	
Purpose	The purpose of this award is to equip the learner with the knowledge, skill and competence to address the needs of older people in the healthcare system.	
Learning Outcomes	Learners will be able to:	
	1	Evaluate a range of common age related psychological changes and their effect on the ageing client
	2	Assess personal and societal attitudes towards the older person to include issues of stereotyping, perpetuation of attitudes and personal bias
	3	Assess the importance of cultivating loving relationships throughout life to provide emotional supports to include the ability to address ageing, death and dying
	4	Evaluate how services in long term care establishments can assist clients and their families to cope with issues of integration and change

	5	Examine the issues associated with an ageing society to include economics, governmental policy, housing, healthcare and aids to successful ageing		
	6	Recognise a range of factors that contribute to physical decline and specific physical changes in ageing to include visual, auditory, musculatory, cardiopulmonary and skeletal factors		
	7	Identify a range of entitlements available to older citizens in Ireland to include legal entitlements, professional and governmental services and community and national organisations that provide help for older people		
	8	Research the normal and pathological changes in adulthood and ageing to include osteoporosis, dementias, incontinence, night blindness, hyper and hypo tension and heart disease		
	9	Evaluate older person care provision nationally and internationally to include, definition of old age, institutional care provision, services and supports to promote independent living		
	10	Describe the sociological aspects of ageing to include role transition, family life, spirituality, employment, ageing as a gradual life long process and potential stage of growth, discovery and opportunity		
	11	Research the traditional view of old age in Irish culture, songs and writings, to include a contrast between the traditional views and emerging ideas of old age in Irish culture as affecting people of multiple disciplines.		
Assessment				
General Information		ails of FET assessment requirements are set out in sessment Guidelines for Providers.		
	ach	All FET assessment is criterion referenced. Successful achievement of the award is based on learners attaining the required standards of knowledge, skill or competence.		
	app circ tecl vali	The techniques set out below are considered the optimum approach to assessment for this component. In exceptional circumstances providers may identify alternative assessment techniques through the provider's application for programme validation which are reliable and valid but which are more appropriate to their context.		

	Assessment of a number of cor across programmes for delivery outcomes of each minor award	, provided that the learning	
	Group or team work may form p each learner's achievement is s	part of the assessment, provided separately assessed.	
	of their application for programm	bmit an assessment plan as part me validation. Assessment Plans to scheduling and integration of validation guidelines at	
Assessment Techniques	In order to demonstrate that they have reached the standards of knowledge, skill and competence identified in all the learning outcomes, learners are required to complete the assessment(s) below.		
	The assessor is responsible for instruments (e.g. project and as papers), assessment criteria an the techniques identified below requirements.	ssignment briefs, examination ad mark sheets, consistent with	
	Programme validation will requi outcome to its associated asses FET validation guidelines at www	•	
	All learning outcomes must be	assessed and achieved	
	Project	50%	
Description	Learner Record	50%	
Description	Project		
	A project is a response to a brie usually carried out over an exte involve research, require invest	ef devised by the assessor. A project is ended period of time. Projects may tigation of a topic, issue or problem or design task, a performance or practical fact or event.	

Learner Record

A learner record is the learner's self-reported and self-reflective record in which he/she describes specific learning experiences, activities, responses and skills acquired.

Recognition of Prior Learning (RPL)	Learners may be assessed on the basis of their prior knowledge and experience. Providers must be specifically quality assured to assess learners by this means. To do so they must complete B10, see Provider's Quality Assurance Guidelines and be included on the Register of RPL approved providers. See RPL Guidelines at www.fetac.ie for further information and registration details.		
Grading	Pass	50% - 64%	
	Merit	65% - 79%	
	Distinction	80% - 100%	
Specific Validation Requirements	·	cific validation requirements	
Supporting Documentation	None		
Access	To access programmes leading to this award the learner should have reached the standards of knowledge, skill and competence associated with the preceding level of the National Framework of Qualifications. This may have been achieved through a formal qualification or through relevant life and work experience.		
Transfer	Successful completion of this component award enables the learner to transfer to programmes leading to other certificates where this component is a mandatory or an elective requirement.		

2. FET Award Standards

QQI award standards are determined within the National Framework of Qualifications (NFQ), <u>http://www.nfq-qqi.com</u>. QQI determines standards for the education and training awards that it makes itself and that are made by providers to whom it has delegated authority to make an award. Providers offering programmes leading to QQI awards **must** have their programme(s) validated in accordance with current validation policy (see <u>www.qqi.ie</u>).

Award standards are designed to be consistent with the NFQ's award classes i.e. major, special purpose, supplemental and minor awards. They are expressed in terms of **learning outcomes** i.e. concise statements of what the learner is expected to know or be able to do in order to achieve a particular award. Learning outcomes for FET awards are contained within the associated specifications:

AWARD CLASS	STANDARDS	AWARDS
Major Award	Certificate Specification	Certificate (Levels 1 to 5) Advanced Certificate (Level 6)

Supplemental Award	Supplemental Specification	Supplemental Certificate (Level 3 to 6)
Special Purpose	Specific Purpose Specification	Specific Purpose Certificate (Levels 3 to 6)
Minor Award	Component Specification	Component Certificate (Levels 1 to 6)

Award standards are thresholds, they describe standards of knowledge, skill or competence to be acquired, and where appropriate, demonstrated, by a learner before an award may be made.

Award standards will be reviewed from time to time as necessary. Minor changes may be made by the QQI executive outside the review cycle where necessary. Changes to standards are published on QQI's website. Providers with validated programmes and providers with delegated authority to make awards are responsible for monitoring relevant standards and making necessary responses to changes.

3. FET Credit

Every FET certificate and component specification includes an FET credit value (Table 1). FET credit is quantified in multiples of 5 FET credits (up to 50 hours of learner effort). Learner effort is based on the time taken by typical learners at the level of the award to achieve the learning outcomes for the award. It includes all learning time involved including: guided learning hours, self-directed learning and assessment.

Table 1: FET Credit Values

NFQ Level	Major Awards Credit Values	Default Credit Values Minor Awards	Other Permitted Minor Award Credit Values	Special Purpose and Supplemental Award Credit Value Ranges
1 2	20 30	5 5	10 10	
3	60	10	5,20	>5 and<60
4	90	10	5,15,20	>5 and<90
5	120	15	5,10,30	>5 and <120
6	120	15	5,10,30	>5 and <120

Guide to Level

Learning outcomes at this level include a comprehensive range of skills which may be vocationally-specific and/or of a general supervisory nature, and require detailed theoretical understanding. The outcomes also provide for a particular focus on learning skills. The outcomes relate to working in a generally autonomous way to assume design and/or management and/or administrative responsibilities. Occupations at this level would include higher craft, junior technician and supervisor.

Strand	Sub-strand	Nature of learning
Knowledge	Breadth	Specialised knowledge of a broad area

	Kind	Some theoretical concepts and abstract thinking, with significant underpinning theory	
Know How & Skill	Range	Demonstrate a comprehensive range of specialised skills and tools	
	Selectivity	Formulate responses to well defined abstract problems	
Competence	Context	Act in a range of varied and specific contexts involving creative and non-routine activities; transfer and apply theoretical concepts and/or technical or creative skills to a range of contexts	
	Role	Exercise substantial personal autonomy and often take responsibility for the work of others and/or for the allocation of resources; form and function within, multiple and complex heterogeneous groups.	
	Learning to Learn	Learn to evaluate own learning and identify needs within a structured learning environment; assist others in identifying learning needs	
	Insight	Express an internalised, personal world view, reflecting engagement with others.
