

Component Specification

Administration Practice

NFQ Level 6

6N4169

1. Component Details

Title	Administration Practice		
Teideal as Gaeilge	Cleachtas Riaracháin		
Award Class	Minor		
Code	6N4	169	
Level	6		
Credit Value	15		
Purpose	The purpose of this award is to equip the learner with the knowledge, skill and competence to work independently or in a supervisory capacity in an administrative role in the private, public or voluntary sector or to progress to higher education or training.		
Learning Outcomes	Learners will be able to:		
	1	Assess the relationships between administration practices and organisational policies, objectives and culture	
	2	Evaluate the role of administration in major organisational functions	
	3	Appraise current legislation and good practice guidelines on areas relevant to administration to include health and safety, data protection, corporate governance, employment and equality	
	4	Research issues relevant to administration to include security, facility management and environmental	

		issues, confidentiality and Freedom of Information requests	
	5	Utilise verbal, written and presentation communication skills to provide a range of administrative support services such as data and workflow management	
	6	Organise meetings and events to include the production of related documentation	
	7	Manage a range of systems to maintain appointment, diary, messaging and mail processing, using information technology applications where relevant	
	8	Devise procedures for the procurement and issuing of business resources and supplies	
	9	Organise business travel and accommodation arrangements	
	10	Utilise a range of office equipment and information technology applications to perform administrative tasks	
	11	Deliver administrative services through developing working relationships with relevant stakeholders	
	12	Prioritise tasks in the performance of administrative services	
	13	Organise administrative support services to develop and maintain customer relationships.	
Assessment			
General Information		ails of FET assessment requirements are set out in essent Guidelines for Providers.	
	All FET assessment is criterion referenced. Successful achievement of the award is based on learners attaining the required standards of knowledge, skill or competence. The techniques set out below are considered the optimum approach to assessment for this component. In exceptional circumstances providers may identify alternative assessment techniques through the provider's application for programme validation which are reliable and valid but which are more appropriate to their context.		
	acro	essment of a number of components may be integrated oss programmes for delivery, provided that the learning comes of each minor award are assessed.	

	Group or team work may form pa each learner's achievement is se	· •
	All providers are required to subrof their application for programma will include information relating to assessment. See current FET varwww.qqi.ie.	e validation. Assessment Plans o scheduling and integration of
Assessment Techniques	In order to demonstrate that they knowledge, skill and competence outcomes, learners are required below.	e identified in all the learning
	The assessor is responsible for construments (e.g. project and ass papers), assessment criteria and the techniques identified below a requirements.	ignment briefs, examination mark sheets, consistent with
	Programme validation will require outcome to its associated assess FET validation guidelines at <u>www</u>	sment technique. See current
	All learning outcomes must be a	ssessed and achieved
	Portfolio / Collection of Work	50%
Description	Project	50%
	Portfolio / Collection of Work	
	of work produced by the learner a achievement of a range of learning	s a collection and/or selection of pieces over a period of time that demonstrates ng outcomes. The collection may be ited in response to a particular brief or ssessor.

Project

A project is a response to a brief devised by the assessor. A project is usually carried out over an extended period of time. Projects may involve research, require investigation of a topic, issue or problem or may involve process such as a design task, a performance or practical activity or production of an artefact or event.

Recognition of Prior Learning (RPL)	Learners may be assessed on the basis of their prior knowledge and experience. Providers must be specifically quality assured to assess learners by this means. To do so they must complete B10, see Provider's Quality Assurance Guidelines and be included on the Register of RPL approved providers. See RPL Guidelines at www.fetac.ie for further information and registration details.		
Grading	Pass	50% - 64%	
	Merit	65% - 79%	
	Distinction	80% - 100%	
Specific Validation Requirements	There are no specific validation requirements		
Supporting Documentation	None		
Access	To access programmes leading to this award the learner should have reached the standards of knowledge, skill and competence associated with the preceding level of the National Framework of Qualifications. This may have been achieved through a formal qualification or through relevant life and work experience.		
Transfer	Successful completion of this component award enables the learner to transfer to programmes leading to other certificates where this component is a mandatory or an elective requirement.		

2. FET Award Standards

QQI award standards are determined within the National Framework of Qualifications (NFQ), <u>http://www.nfq-qqi.com</u>. QQI determines standards for the education and training awards that it makes itself and that are made by providers to whom it has delegated authority to make an award. Providers offering programmes leading to QQI awards **must** have their programme(s) validated in accordance with current validation policy (see <u>www.qqi.ie</u>).

Award standards are designed to be consistent with the NFQ's award classes i.e. major, special purpose, supplemental and minor awards. They are expressed in terms of **learning outcomes** i.e. concise statements of what the learner is expected to know or be able to do in order to achieve a particular award. Learning outcomes for FET awards are contained within the associated specifications:

AWARD CLASS	STANDARDS	AWARDS
Major Award	Certificate Specification	Certificate (Levels 1 to 5) Advanced Certificate (Level 6)

Supplemental Award	Supplemental Specification	Supplemental Certificate (Level 3 to 6)
Special Purpose	Specific Purpose Specification	Specific Purpose Certificate (Levels 3 to 6)
Minor Award	Component Specification	Component Certificate (Levels 1 to 6)

Award standards are thresholds, they describe standards of knowledge, skill or competence to be acquired, and where appropriate, demonstrated, by a learner before an award may be made.

Award standards will be reviewed from time to time as necessary. Minor changes may be made by the QQI executive outside the review cycle where necessary. Changes to standards are published on QQI's website. Providers with validated programmes and providers with delegated authority to make awards are responsible for monitoring relevant standards and making necessary responses to changes.

3. FET Credit

Every FET certificate and component specification includes an FET credit value (Table 1). FET credit is quantified in multiples of 5 FET credits (up to 50 hours of learner effort). Learner effort is based on the time taken by typical learners at the level of the award to achieve the learning outcomes for the award. It includes all learning time involved including: guided learning hours, self-directed learning and assessment.

Table 1: FET Credit Values

NFQ Level	Major Awards Credit Values	Default Credit Values Minor Awards	Other Permitted Minor Award Credit Values	Special Purpose and Supplemental Award Credit Value Ranges
1 2	20 30	5 5	10 10	
3	60	10	5,20	>5 and<60
4	90	10	5,15,20	>5 and<90
5	120	15	5,10,30	>5 and <120
6	120	15	5,10,30	>5 and <120

Guide to Level

Learning outcomes at this level include a comprehensive range of skills which may be vocationally-specific and/or of a general supervisory nature, and require detailed theoretical understanding. The outcomes also provide for a particular focus on learning skills. The outcomes relate to working in a generally autonomous way to assume design and/or management and/or administrative responsibilities. Occupations at this level would include higher craft, junior technician and supervisor.

Strand	Sub-strand	Nature of learning
Knowledge	Breadth	Specialised knowledge of a broad area

	Kind	Some theoretical concepts and abstract thinking, with significant underpinning theory	
Know How & Skill	Range	Demonstrate a comprehensive range of specialised skills and tools	
	Selectivity	Formulate responses to well defined abstract problems	
Competence	Context	Act in a range of varied and specific contexts involving creative and non-routine activities; transfer and apply theoretical concepts and/or technical or creative skills to a range of contexts	
	Role	Exercise substantial personal autonomy and often take responsibility for the work of others and/or for the allocation of resources; form and function within, multiple and complex heterogeneous groups.	
	Learning to Learn	Learn to evaluate own learning and identify needs within a structured learning environment; assist others in identifying learning needs	
	Insight	Express an internalised, personal world view, reflecting engagement with others.
