

Component Specification

Research and Reporting for Digital Media

NFQ Level 6

6N5526

1. Component Details

Title	Research and Reporting for Digital Media	
Teideal as Gaeilge	Taighde agus Tuairisciú le haghaidh Meán Digiteach	
Award Class	Minor	
Code	6N5526	
Level	6	
Credit Value	15	
Purpose	The purpose of this award is to equip the learner with the knowledge, skill and competence to research and produce news reports for digital media.	
Learning Outcomes	Learners will be able to:	
	1	Evaluate the code of practice governing interviews to include establishing identity and confidentiality
	2	Evaluate a range of interview situations to include face to face interviews, telephone interviews and press conferences
	3	Research a range of key national and international social, political, sporting and cultural issues and events
	4	Research the concept of target audience
	5	Extract relevant information from a range of information sources to include charts, statistics and graphs

6	Manage the interview process to include arranging
	the interview, conducting background research and
	formulating questions

- 7 Research a given brief to include locating and recording information, drafting a preliminary outline, documenting and acknowledging sources and summarising and assimilating research information into a research brief
- 8 Use a range of reporting skills to include deciding on the content and shape of a digital media news piece, supervising the camera operator, doing a piece to camera and writing and recording a voice over
- 9 Demonstrate a range of presentation skills to include understanding shot compositions and their placement, the conventions of addressing the viewer, guest or interviewee and recording and editing a single camera interview
- 10 Research digital media news reports using a range of information sources
- 11 Manage a system of information storage to include selecting relevant information for storage and updating material
- 12 Demonstrate a range of digital media reporting, interviewing and presentation skills
- 13 Evaluate a range of categories of programme genre to include news and current affairs, drama, documentary and magazine
- 14 Evaluate their own work and the work of professional television programme makers.

Assessment

General Information	Details of FET assessment requirements are set out in
	Assessment Guidelines for Providers.

All FET assessment is criterion referenced. Successful achievement of the award is based on learners attaining the required standards of knowledge, skill or competence.

The techniques set out below are considered the optimum approach to assessment for this component. In exceptional circumstances providers may identify alternative assessment techniques through the provider's application for programme

	validation which are reliable and appropriate to their context.	d valid but which are more	
	Assessment of a number of com across programmes for delivery outcomes of each minor award a	provided that the learning	
	Group or team work may form part of the assessment, provided each learner's achievement is separately assessed.		
	All providers are required to sub of their application for programm will include information relating t assessment. See current FET va www.qqi.ie.	ne validation. Assessment Plans to scheduling and integration of	
Assessment Techniques	In order to demonstrate that the knowledge, skill and competenc outcomes, learners are required below.	•	
	The assessor is responsible for instruments (e.g. project and ass papers), assessment criteria and the techniques identified below a requirements.	signment briefs, examination d mark sheets, consistent with	
	Programme validation will require providers to map each learning outcome to its associated assessment technique. See current FET validation guidelines at <u>www.qqi.ie</u> .		
	All learning outcomes must be assessed and achieved		
	Project	60%	
	Assignment	40%	
Description			
	Project		
	usually carried out over an exter involve research, require investi	f devised by the assessor. A project is nded period of time. Projects may gation of a topic, issue or problem or design task, a performance or practical act or event.	

Assignment

	specific guideline	an exercise carried out in response to a brief with s as to what should be included. An assignment is uration and may be carried out over a specified period	
Recognition of Prior Learning (RPL)	Learners may be assessed on the basis of their prior knowledge and experience. Providers must be specifically quality assured to assess learners by this means. To do so they must complete B10, see Provider's Quality Assurance Guidelines and be included on the Register of RPL approved providers. See RPL Guidelines at www.fetac.ie for further information and registration details.		
Grading	Pass	50% - 64%	
	Merit	65% - 79%	
	Distinction	80% - 100%	
Specific Validation Requirements	There are no specific validation requirements		
Supporting Documentation	None		
Access	To access programmes leading to this award the learner should have reached the standards of knowledge, skill and competence associated with the preceding level of the National Framework of Qualifications. This may have been achieved through a formal qualification or through relevant life and work experience.		
Transfer	Successful completion of this component award enables the learner to transfer to programmes leading to other certificates where this component is a mandatory or an elective requirement.		

2. FET Award Standards

QQI award standards are determined within the National Framework of Qualifications (NFQ), <u>http://www.nfq-qqi.com</u>. QQI determines standards for the education and training awards that it makes itself and that are made by providers to whom it has delegated authority to make an award. Providers offering programmes leading to QQI awards **must** have their programme(s) validated in accordance with current validation policy (see <u>www.qqi.ie</u>).

Award standards are designed to be consistent with the NFQ's award classes i.e. major, special purpose, supplemental and minor awards. They are expressed in terms of **learning outcomes** i.e. concise statements of what the learner is expected to know or be able to do in order to achieve a particular award. Learning outcomes for FET awards are contained within the associated specifications:

AWARD CLASS	STANDARDS	AWARDS
Major Award	Certificate Specification	Certificate (Levels 1 to 5) Advanced Certificate (Level 6)
Supplemental Award	Supplemental Specification	Supplemental Certificate (Level 3 to 6)
Special Purpose	Specific Purpose Specification	Specific Purpose Certificate (Levels 3 to 6)
Minor Award	Component Specification	Component Certificate (Levels 1 to 6)

Award standards are thresholds, they describe standards of knowledge, skill or competence to be acquired, and where appropriate, demonstrated, by a learner before an award may be made.

Award standards will be reviewed from time to time as necessary. Minor changes may be made by the QQI executive outside the review cycle where necessary. Changes to standards are published on QQI's website. Providers with validated programmes and providers with delegated authority to make awards are responsible for monitoring relevant standards and making necessary responses to changes.

3. FET Credit

Every FET certificate and component specification includes an FET credit value (Table 1). FET credit is quantified in multiples of 5 FET credits (up to 50 hours of learner effort). Learner effort is based on the time taken by typical learners at the level of the award to achieve the learning outcomes for the award. It includes all learning time involved including: guided learning hours, self-directed learning and assessment.

Table 1: FET Credit Values

NFQ Level	Major Awards Credit Values	Default Credit Values Minor Awards	Other Permitted Minor Award Credit Values	Special Purpose and Supplemental Award Credit Value Ranges
1	20	5	10	
2	30	5	10	
3	60	10	5,20	>5 and<60
4	90	10	5,15,20	>5 and<90
5	120	15	5,10,30	>5 and <120
6	120	15	5,10,30	>5 and <120

Guide to Level

Learning outcomes at this level include a comprehensive range of skills which may be vocationally-specific and/or of a general supervisory nature, and require detailed theoretical understanding. The outcomes also provide for a particular focus on learning skills. The outcomes relate to working in a generally autonomous way to assume design and/or management and/or administrative responsibilities. Occupations at this level would include higher craft, junior technician and supervisor.

Strand	Sub-strand	Nature of learning
Knowledge	Breadth	Specialised knowledge of a broad area
	Kind	Some theoretical concepts and abstract thinking, with significant underpinning theory
Know How & Skill	Range	Demonstrate a comprehensive range of specialised skills and tools
	Selectivity	Formulate responses to well defined abstract problems
Competence	Context	Act in a range of varied and specific contexts involving creative and non-routine activities; transfer and apply theoretical concepts and/or technical or creative skills to a range of contexts
	Role	Exercise substantial personal autonomy and often take responsibility for the work of others and/or for the allocation of resources; form and function within, multiple and complex heterogeneous groups.
	Learning to Learn	Learn to evaluate own learning and identify needs within a structured learning environment; assist others in identifying learning needs
	Insight	Express an internalised, personal world view, reflecting engagement with others.
