Maximum Intakes per Annum:	1	1	Full Time, Part Time
Minimum Learners per Intake:	1	1	
Maximum Learners per Intake:	1	1	
Duration (months)	24	24	

Target Learner Groups

The students drawn to the programme are likely to be in early to mid-career stage, in middle to senior management or on a fast track to senior management, and with undergraduate qualifications in a non-business management area. As such, the timetable structure is designed to allow students study the programme on a full or part-time basis. The learner profile for the proposed MSc in Non Profit Management will most likely be those who are within the non-profit sector. The majority of learners are anticipated to be Irish or domiciled in Ireland and work in a registered charity. Specifically, this MSc in Non-Profit Management is aimed at anyone following a career path which requires them to step into middle to top management positions in the non-profit sector and/or INGOs. Additionally, the course can provide a transition stage for graduates from other disciplines who wish to move into the management arena either as practitioners, researchers or consultants with a specific interest in non-profit management. As the programme addresses a wide variety of managerial topics in the non-profit management space, current or aspiring Board Members of non-profit organisations may be attracted to the programme.

Brief Synopsis of the Programmes

The programme pillars are management knowledge and skills, knowledge and skills specific to the not-for profit sector and skills of research and analysis. The core management knowledge, which extends across the business domain, including Finance, Management and Strategy and Regulation, allows students develop and enhance their business competencies. Specifically, graduates will be provided with the skillset to resolve real-life business challenges and personally develop into strong and confident business leaders and mentors. The Nonprofit pillar ensures that graduates of the programme are provided with a comprehensive understanding of the key tenets and stakeholders of the sector. The final pillar is that of research. The research element of the programme directs students to contemporary challenges and problems in the sector in Ireland or overseas. Overall this programme seeks to ensure graduates develop their personal competencies as well as the critical thinking, analytical and business skills necessary for modern not for profit enterprises. At the core of the programme is the objective to ensure that graduates become reflective, thoughtful leaders who collaborate, create and share knowledge in order to deal with the complexities of the dynamic third sector.

The managerial and leadership formation in the programme is collaboratively and team based, community focused insofar as the whole programme is designed for the community and voluntary sector, is shaped by a strong ethical based values model and will challenge learners to “lift their game”, becoming more innovative and analytical in their approaches to problems and conscious of their obligations to provide servant leadership to their stakeholders.

Teaching and Learning Modes	1. Lectures / Classes 2. Practical Sessions 3. Tutorials

Conditions of Validation of the Programmes Covered by this Certificate of Validation

Part 1: Statutory Conditions of Validation

The statutory (section 45(3) of the 2012 Act) conditions of validation are that the provider of the programme shall:

1. Co-operate with and assist QQI in the performance of QQI's functions in so far as those functions relate to the functions of the provider,
2. Establish procedures which are fair and consistent for the assessment of enrolled learners to ensure the standards of knowledge, skill or competence determined by QQI under section 49 (1) are acquired, and where appropriate, demonstrated, by enrolled learners,
3. Continue to comply with section 65 of the 2012 Act in respect of arrangements for the protection of enrolled learners, if applicable, and
4. Provide to QQI such information as QQI may from time to time require for the purposes of the performance of its functions, including information in respect of completion rates.

Part 2 Conditions of Validation Established by QQI Under section 45(4)(b) of the 2012 Act

Part 2.1 Condition of Validation Concerning a Change in the QQI Award or Award Standard

1. Where QQI changes an award title, an award specification or an award standard that a programme depends upon, the provider shall not enrol any further learners on the affected programmes unless informed otherwise in writing by QQI (e.g. by the issue of a revised certificate of validation). The programme is considered validated for learners already enrolled on the affected programme.

Part 2.2 Condition of Validation Concerning the Duration of Enrolment

1. The duration of enrolment is the interval during which learners may be enrolled on the validated programme.

Validation is determined by QQI for a specified number of years of enrolment appropriate to the particular programme as indicated on the certificate on validation subject to unit 9.2.1. It is a condition of validation that the programme does not enrol any new learners outside this interval. A typical duration would be five years.

If a provider wishes to continue to enrol learners to the programme beyond this interval the provider must arrange in good time for it to be validated again by QQI, or exceptionally the provider may apply for extension of the duration of enrolment (unit (14)). In this context the provider may apply for validation of the programme from first principles or, alternatively, the provider may avail of the process for revalidation (unit (13)) by QQI.

Part 2.3 General Condition of Validation

The provider of the programme shall:

1. Ensure that the programme as implemented does not differ in a material way from the programme as validated; differing in a material way is defined as differing in any aspect of the programme or its implementation that was material to QQI's validation criteria.
2. Ensure that the programme is provided with the appropriate staff and physical resources as validated.
3. Implement in respect of the programme its written quality assurance procedures (as approved by QQI).
4. Make no significant change to the programme without the prior approval of QQI. (See unit (8)).
5. Unless otherwise agreed by QQI in writing, start implementing the programme as validated and enrol learners within 18 months of validation.
6. Continue in respect of the validated programme to comply with section 56 of the 2012 Act in respect of procedures for access, transfer and progression.
7. Implement the programme and procedures for assessment of learners in accordance with the Approved Programme Schedule and notify QQI in writing of any amendments to this arising from changes to the programme; see unit (9).
8. When advertising and promoting the programme and awards, use the programme title as validated, and the correct QQI award title(s), award type(s) and award class(es) indicating the level of the award(s) on the National Framework of Qualifications.

9. Adhere to QQI regulations and procedures for certification.

10. Notify QQI in writing without delay of: a. Any material change to the programme; a. Anything that impacts on the integrity or reputation of the programme or the corresponding QQI awards; b. Anything that infringes the conditions of validation; or c. Anything that would be likely to cause QQI to consider reviewing the validation.

11. Notify QQI in writing to determine the implications for the provider's validated programmes, where the provider is likely to, or planning to, merge (amalgamate) with another entity or to acquire, or be acquired by, another entity (see unit (12.5)) .

12. Report to QQI, when required or requested, on its implementation of the programme and compliance with the conditions of validation.

Part 2.4 General Condition of Validation Arising from Specialised Validation Policy and Criteria

1.

Part 2.5 Special Conditions of Validation
