5 Year Plan: Planned total enrolment i.e. aggregated across all intakes and all approved centres

	Year 1	Year 2	Year 3	Year 4	Year 5
Minimum Intake into first year	16	16	16	16	16
Maximum Intake into first year	200	200	200	200	200

Target Learner groups	The programme is aimed at full time, part time, domestic and international learners. All applicants must have qualifications or experience which evidences intermediate competence in IT along with H5 or equivalent in Leaving certificate Maths. This programme is designed to include learners in a related industry and those seeking employment within the IT field. It is also for those aspiring to progress their academic experience to a Level 7 NFQ award, specifically in the area of Data Analytics. The programme is also aimed at those learners who have already attained a Level 7 NFQ award in a related discipline and are seeking to fine tune their knowledge of their chosen field with a specialist themed course of study.
-----------------------	--

Brief Synopsis of the programmes	The Diploma in Data Analytics for Business (60 ECTS) is designed for domestic and international learners seeking to develop their knowledge, skills and competence in the area of Data Analytics. This special purpose programme is designed to produce graduates with the attributes required of a Data Analyst today, and with the ability to continue to develop knowledge, skill and competence to remain competitive and employable in a rapidly changing and expanding sector of the economy. Learners will be provided with the opportunity to assimilate knowledge within an industry focused learning environment. This focus is maintained through the use of practical sessions in labs and workshops. Graduates will be qualified to assume entry level industry roles and/or to further advance their education.
----------------------------------	---

Delivery mode: full-time / part-time	Full time & Part time
--------------------------------------	-----------------------

Teaching and Learning Modes	Lecture, lab, tutorial, workshop, group work

Physical resource requirements

Standard computing resources required to deliver level 7 & 8 programmes in computing. Classrooms, IT Laboratories, (including relevant hardware and software), student support resources including library, study and meeting facilities, etc.

These are all currently available in CCT. The College has determined that, considering its current enrolment, it has the capacity to deal with the additional numbers outlined above. It is on this basis that it specified the maximum number of learners it will accept. The College commits to providing additional resources should a need arise during the period of validation.

Staff Profiles**Qualifications and Experience****WTE**

Academic and Professional: MSc required. However NFQ Level 8 in computer science, in Computer Science, Software Development, Software Engineering or equivalent is acceptable in cases where significant industrial experience is evident. Industry experience will be essential for those who do not have a postgraduate award.

Software Development and Associated Experience: A minimum of 1 year experience required, 3 years of experience preferred.

Pedagogical: Teaching experience is desired. Completion of postgraduate CPD/Certificate in Teaching and Learning or similar preferred.

Conditions of Validation of the Programmes Covered by this Certificate of Validation

Part 1: Statutory Conditions of Validation

The statutory (section 45(3) of the 2012 Act) conditions of validation are that the provider of the programme shall:

- 1.co-operate with and assist QQI in the performance of QQI's functions in so far as those functions relate to the functions of the provider,
- 2.establish procedures which are fair and consistent for the assessment of enrolled learners to ensure the standards of knowledge, skill or competence determined by QQI under section 49 (1) are acquired, and where appropriate, demonstrated, by enrolled learners,
- 3.continue to comply with section 65 of the 2012 Act in respect of arrangements for the protection of enrolled learners, if applicable, and
- 4.provide to QQI such information as QQI may from time to time require for the purposes of the performance of its functions, including information in respect of completion rates.

Part 2 Conditions of Validation Established by QQI Under section 45(4)(b) of the 2012 Act)

Part 2.1 Condition of Validation Concerning a Change in the QQI Award or Award Standard

- 1.Where QQI changes an award title, an award specification or an award standard that a programme depends upon, the provider shall not enrol any further learners on the affected programmes unless informed otherwise in writing by QQI (e.g. by the issue of a revised certificate of validation). The programme is considered validated for learners already enrolled on the affected programme.

Part 2.2 Condition of Validation Concerning the Duration of Enrolment

- 1.The duration of enrolment is the interval during which learners may be enrolled on the validated programme.

Validation is determined by QQI for a specified number of years of enrolment appropriate to the particular programme as indicated on the certificate on validation subject to unit 9.2.1. It is a condition of validation that the programme does not enrol any new learners outside this interval. A typical duration would be five years.

If a provider wishes to continue to enrol learners to the programme beyond this interval the provider must arrange in good time for it to be validated again by QQI, or exceptionally the provider may apply for extension of the duration of enrolment (unit (14)). In this context the provider may apply for validation of the programme from first principles or, alternatively, the provider may avail of the process for revalidation (unit (13)) by QQI.

Part 2.3 General Condition of Validation

The provider of the programme shall:

- 1.Ensure that the programme as implemented does not differ in a material way from the programme as validated; differing in a material way is defined as differing in any aspect of the programme or its implementation that was material to QQI's validation criteria.
- 2.Ensure that the programme is provided with the appropriate staff and physical resources as validated.
- 3.Implement in respect of the programme its written quality assurance procedures (as approved by QQI).
- 4.Make no significant change to the programme without the prior approval of QQI. (See unit (8)).
- 5.Unless otherwise agreed by QQI in writing, start implementing the programme as validated and enrol learners within 18 months of validation.

6. Continue in respect of the validated programme to comply with section 56 of the 2012 Act in respect of procedures for access, transfer and progression.
 7. Implement the programme and procedures for assessment of learners in accordance with the Approved Programme Schedule and notify QQI in writing of any amendments to this arising from changes to the programme; see unit (9).
 8. When advertising and promoting the programme and awards, use the programme title as validated, and the correct QQI award title(s), award type(s) and award class(es) indicating the level of the award(s) on the National Framework of Qualifications.
 9. Adhere to QQI regulations and procedures for certification.
10. Notify QQI in writing without delay of:
- a. any material change to the programme;
 - b. anything that impacts on the integrity or reputation of the programme or the corresponding QQI awards;
 - c. anything that infringes the conditions of validation; or
 - c. anything that would be likely to cause QQI to consider reviewing the validation.
11. Notify QQI in writing to determine the implications for the provider's validated programmes, where the provider is likely to, or planning to, merge (amalgamate) with another entity or to acquire, or be acquired by, another entity (see unit (12.5)).
12. Report to QQI, when required or requested, on its implementation of the programme and compliance with the conditions of validation.
