#### **Target Learner groups**

The BA (Hons) in Counselling and Psychotherapy programme is aimed at applicants who are drawn to study and work involving the exercise of listening who have encountered counselling and psychotherapy in some capacity and have been drawn to pursue formal study and training in the field. They may or may not have engaged in prior formal study of counselling and psychotherapy but will possibly have been involved experientially in areas related to psychology or psychotherapy or have engaged in their own personal therapy. The programme is aimed at those who wish to acquire an undergraduate qualification in the practice of counselling and psychotherapy. The programme introduces learners to the core theoretical and practical elements of the disciplines and brings them to the point of sufficient knowledge, know-how and skills and competence to match those of a graduate of award Level 8. Thus, it will enable students to graduate with a relevant qualification suited to a broad range of career and professional development options and progress on the path towards becoming a professional working in this field. On completion of this course, learners will have acquired a broad undergraduate education and the practical and intellectual skills required for postgraduate education and a variety of career paths. This programme is also aimed at those who wish to learn counselling and psychotherapeutic skills, and to practice those skills, whether as a professional or in related fields such as social care, community work, in the Gardaí, in an education setting or in the voluntary sector.

Brief Synopsis of the programmes

The BA (Hons) in Counselling and Psychotherapy (BACAP) award, consists of: experiential training groups, personal development through the experience of psychotherapy and process groups and supervised clinical practice. These components are represented throughout the modules over the four years of the BA (Hons) programme. Personal psychotherapy, undertaken at the latest in the second year of the programme, is a requirement that is not represented in the modules of the course. The other major component of personal exploration and development, namely the Process Group Work is represented.

The orientation of the programme is integrative/humanistic, and learners are introduced to the

principles of psychoanalysis, developmental psychology, existential psychotherapy, cognitive behavioural therapy (CBT) and so on. The programme is centred around the learners' personal development, and also provides them with experience of counselling and psychotherapy through both group and individual settings. Alongside the learners' own experiential learning, the programme develops knowledge of different forms of psychopathology and theories of psychotherapy and counselling. The programme includes the required counselling skills, personal development and theoretical components which mean it is recognised by the Irish Association for Counselling and Psychotherapy (IACP). The programme is constructed as a four year part-time programme of 30 modules leading to an award of BA (Hons) in Counselling and Psychotherapy.

Delivery mode: full-time / part-time

Part-time only

# Teaching and Learning Modes |1. Classroom lectures

- 2. Case-based learning

Lecture rooms with multimedia resources and physical resources suitable for working in breakout groups. Classroom/computer room with requisite (non-specialist) software required for the delivery of the programme.

#### **Staff Profiles**

# Qualifications and Experience

WTE 2.24

Lecturing staff will have a minimum of a Masters and/or PhD in Counselling and Psychotherapy.

They should also have teaching, training, supervising or research experience within the counselling and psychotherapy field but also specific to the modality being taught. Staff, in a practice-oriented programme should have considerable practical/clinical experience in mutually supporting theory and practice learning opportunities for learning.

### **Target Learner groups**

The Higher Certificate in Applied Social Studies is an embedded award in the BA (Hons) Counselling and Psychotherapy and, similar to the principal programme, is aimed at applicants who are drawn to study and work involving the exercise of listening who have encountered counselling and psychotherapy in some capacity and have been drawn to pursue formal study and training in the field. They may or may not have engaged in prior formal study of counselling and psychotherapy but will possibly have been involved experientially in areas related to psychology or psychotherapy or have engaged in their own personal therapy. The programme introduces learners to the core theoretical of the disciplines and brings them to the point of sufficient knowledge, know-how and skills and competence to match those of a graduate of award Level 6. The Higher Certificate is an exit award for those who are not considered eligible or professionally suitable to progress on to supervised client practice in year 3 of the BA (Hons) in Counselling and Psychotherapy. A learner may in fact take it upon themselves to exit at the end of the two years and avail of the exit award of a Higher Certificate in Arts in Applied Social Studies.

### **Brief Synopsis of the** programmes

The Higher Certificate in Applied Social Studies is an embedded award in the BA (Hons) in Counselling and Psychotherapy.

It is an award only for those learners whom the team cannot recommend for progression to client work but who have managed to successfully complete the academic assessments of the first two

The Higher Certificate in Applied Social Studies consists of three interconnected strands: experiential training groups, personal development through the experience of psychotherapy and process groups. Personal psychotherapy, undertaken at the latest in the second year of the programme, is a requirement that is not represented in the modules of the course. The other major component of personal exploration and development, namely the Process Group Work is represented.

In summary, the division between the first two years and the second two years of the four-year BA (Hons) is crucial to allow a decision to be made on the basis of a knowledge of a learner's work and participation concerning their suitability for supervised clinical practice. The first two years is therefore a period primarily of personal development for the learner and allowing for DBS to establish a profile of the learner so that a fair and balanced informed decision can be made regarding suitability for supervised clinical practice.

# Conditions of Validation of the Programmes Covered by this Certificate of Validation

#### Part 1: Statutory Conditions of Validation

The statutory (section 45(3) of the 2012 Act) conditions of validation are that the provider of the programme shall:

- 1.co-operate with and assist QQI in the performance of QQI's functions in so far as those functions relate to the functions of the provider,
- 2.establish procedures which are fair and consistent for the assessment of enrolled learners to ensure the standards of knowledge, skill or competence determined by QQI under section 49 (1) are acquired, and where appropriate, demonstrated, by enrolled learners,
- 3.continue to comply with section 65 of the 2012 Act in respect of arrangements for the protection of enrolled learners, if applicable, and
- 4.provide to QQI such information as QQI may from time to time require for the purposes of the performance of its functions, including information in respect of completion rates.

### Part 2 Conditions of Validation Established by QQI Under section 45(4)(b) of the 2012 Act)

### Part 2.1 Condition of Validation Concerning a Change in the QQI Award or Award Standard

1. Where QQI changes an award title, an award specification or an award standard that a programme depends upon, the provider shall not enrol any further learners on the affected programmes unless informed otherwise in writing by QQI (e.g. by the issue of a revised certificate of validation). The programme is considered validated for learners already enrolled on the affected programme.

### Part 2.2 Condition of Validation Concerning the Duration of Enrolment

1. The duration of enrolment is the interval during which learners may be enrolled on the validated programme.

Validation is determined by QQI for a specified number of years of enrolment appropriate to the particular programme as indicated on the certificate on validation subject to unit 9.2.1. It is a condition of validation that the programme does not enrol any new learners outside this interval. A typical duration would be five years.

If a provider wishes to continue to enrol learners to the programme beyond this interval the provider must arrange in good time for it to be validated again by QQI, or exceptionally the provider may apply for extension of the duration of enrolment (unit (14)). In this context the provider may apply for validation of the programme from first principles or, alternatively, the provider may avail of the process for revalidation (unit (13)) by QQI.

### Part 2.3 General Condition of Validation

The provider of the programme shall:

- 1.Ensure that the programme as implemented does not differ in a material way from the programme as validated; differing in a material way is defined as differing in any aspect of the programme or its implementation that was material to QQI's validation criteria.
- 2.Ensure that the programme is provided with the appropriate staff and physical resources as validated.
- 3.Implement in respect of the programme its written quality assurance procedures (as approved by QQI).
- 4. Make no significant change to the programme without the prior approval of QQI. (See unit (8)).
- 5.Unless otherwise agreed by QQI in writing, start implementing the programme as validated and enrol learners within 18 months of validation.

6.Continue in respect of the validated programme to comply with section 56 of the 2012 Act in respect of procedures for access, transfer and progression.

7.Implement the programme and procedures for assessment of learners in accordance with the Approved Programme Schedule and notify QQI in writing of any amendments to this arising from changes to the programme; see unit (9).

8. When advertising and promoting the programme and awards, use the programme title as validated, and the correct QQI award title(s), award type(s) and award class(es) indicating the level of the award(s) on the National Framework of Qualifications.

9. Adhere to QQI regulations and procedures for certification.

- 10. Notify QQI in writing without delay of:
- a. any material change to the programme;
- a. anything that impacts on the integrity or reputation of the programme or the corresponding QQI awards;
- b. anything that infringes the conditions of validation; or
- c. anything that would be likely to cause QQI to consider reviewing the validation.
- 11. Notify QQI in writing to determine the implications for the provider's validated programmes, where the provider is likely to, or planning to, merge (amalgamate) with another entity or to acquire, or be acquired by, another entity (see unit (12.5)).
- 12.Report to QQI, when required or requested, on its implementation of the programme and compliance with the conditions of validation.

# Part 2.4 General Condition of Validation Arising from Specialised Validation Policy and Criteria

#### **Special Regulations** (Up to 280 characters)

Special Regulation 1: For the Modules Psychotherapy Skills II and Group Supervision II special regulations apply in that it is required that a learner pass each component of assessment.

Special Regulation 2: Learners on the BA (Hons) must verify with written documentation that they have been in their own psychotherapy with a reputable practitioner for the duration of years 2, 3 and 4 of the programme. Failure to adequately verify engagement in their own psychotherapy meeting the requirements of the programme (80hours of personal therapy) with a reputable practitioner will prevent the learner from graduating from the programme.
