The programme is aimed at learners who wish to acquire a grounding in business with a view to entering industry, to progress professionally or to undertake further business studies. Learners will acquire knowledge in core areas of business including management, finance, marketing, IT and others. They also have the opportunity to specialise in areas such as project management, law, human resource management, psychology and others. Through the project in the final stage of the programme, learners will develop research and writing skills further. Graduates can progress into junior roles in business, pursue a professional qualification or progress to further education, most likely in the business discipline though not exclusively.

## Brief Synopsis of the Programmes

The BA (Hons) in Business is a three year full-time or four year part-time programme totalling 180 ECTS. In this honours bachelor degree programme, learners study common subjects in first year, followed by considerable flexibility in second and third year subject choice. This allows learners in years 2 and 3 to orientate their studies towards preferred subjects or to choose disciplines in which they have demonstrated strength in years one and two. This knowledge is then synthesised in a final year capstone research project. The programme is designed to give a clearly structured business education that provides a solid foundation for success in a business career. This programme provides a strong grounding in fundamental business concepts, ideas, practices and methodologies. Graduates will, upon completion of this programme, have the necessary knowledge, skills and attributes to enter the business world professionally and/or progress to a management role within a general or specific field or subfield of business. Throughout the programme, learners will acquire business acumen to strategically appraise business opportunities and challenges and effectively integrate into decision-making roles with an organisation. Learners will also have insight into sub-fields of business and increase their knowledge and skills in the specialised areas of Management, Project Management, Human Resource Management, Information Systems, Psychology or Law (electives dependent). The BA (Hons) in Business will create graduates capable of dealing with diverse intrinsic and extrinsic opportunities and challenges in the business world and do so in a creative fashion promoting business sustainability and growth. Graduates will be eligible for junior management roles or higher administrative roles within a specific subfield of business complementing their previous experience and learning. The BA (Hons) in Business also permits entry to further higher education institutions or to a number of Level 9 DBS business programmes such as the MSc Management Practice, MSc Marketing, MSc in Digital Marketing, MSc in International Accounting and Finance or DBS's Master of Business Administration.

# Conditions of Validation of the Programmes Covered by this Certificate of Validation

## Part 1: Statutory Conditions of Validation

The statutory (section 45(3) of the 2012 Act) conditions of validation are that the provider of the programme shall:

1. Co-operate with and assist QQI in the performance of QQI's functions in so far as those functions relate to the functions of the provider,
2. Establish procedures which are fair and consistent for the assessment of enrolled learners to ensure the standards of knowledge, skill or competence determined by QQI under section 49 (1) are acquired, and where appropriate, demonstrated, by enrolled learners,
3. Continue to comply with section 65 of the 2012 Act in respect of arrangements for the protection of enrolled learners, if applicable, and
4. Provide to QQI such information as QQI may from time to time require for the purposes of the performance of its functions, including information in respect of completion rates.

## Part 2 Conditions of Validation Established by QQI Under section 45(4)(b) of the 2012 Act

### Part 2.1 Condition of Validation Concerning a Change in the QQI Award or Award Standard

1. Where QQI changes an award title, an award specification or an award standard that a programme depends upon, the provider shall not enrol any further learners on the affected programmes unless informed otherwise in writing by QQI (e.g. by the issue of a revised certificate of validation). The programme is considered validated for learners already enrolled on the affected programme.

### Part 2.2 Condition of Validation Concerning the Duration of Enrolment

1. The duration of enrolment is the interval during which learners may be enrolled on the validated programme.

Validation is determined by QQI for a specified number of years of enrolment appropriate to the particular programme as indicated on the certificate on validation subject to unit 9.2.1. It is a condition of validation that the programme does not enrol any new learners outside this interval. A typical duration would be five years.

If a provider wishes to continue to enrol learners to the programme beyond this interval the provider must arrange in good time for it to be validated again by QQI, or exceptionally the provider may apply for extension of the duration of enrolment (unit (14)). In this context the provider may apply for validation of the programme from first principles or, alternatively, the provider may avail of the process for revalidation (unit (13)) by QQI.

### Part 2.3 General Condition of Validation

The provider of the programme shall:

1. Ensure that the programme as implemented does not differ in a material way from the programme as validated; differing in a material way is defined as differing in any aspect of the programme or its implementation that was material to QQI's validation criteria.
2. Ensure that the programme is provided with the appropriate staff and physical resources as validated.
3. Implement in respect of the programme its written quality assurance procedures (as approved by QQI).
4. Make no significant change to the programme without the prior approval of QQI. (See unit (8)).
5. Unless otherwise agreed by QQI in writing, start implementing the programme as validated and enrol learners within 18 months of validation.
6. Continue in respect of the validated programme to comply with section 56 of the 2012 Act in respect of procedures for access, transfer and progression.
7. Implement the programme and procedures for assessment of learners in accordance with the Approved Programme Schedule and notify QQI in writing of any amendments to this arising from changes to the programme; see unit (9).
8. When advertising and promoting the programme and awards, use the programme title as validated, and the correct QQI award title(s), award type(s) and award class(es) indicating the level of the award(s) on the National Framework of Qualifications.

9. Adhere to QQI regulations and procedures for certification.

10. Notify QQI in writing without delay of: a. Any material change to the programme; a. Anything that impacts on the integrity or reputation of the programme or the corresponding QQI awards; b. Anything that infringes the conditions of validation; or c. Anything that would be likely to cause QQI to consider reviewing the validation.

11. Notify QQI in writing to determine the implications for the provider's validated programmes, where the provider is likely to, or planning to, merge (amalgamate) with another entity or to acquire, or be acquired by, another entity (see unit (12.5)) .

12. Report to QQI, when required or requested, on its implementation of the programme and compliance with the conditions of validation.

#### **Part 2.4 General Condition of Validation Arising from Specialised Validation Policy and Criteria**

1.

#### **Part 2.5 Special Conditions of Validation**

##### **Bachelor of Arts (Honours) in Business**

1. Prior to the enrolment of any learners the programme management documentation needs to be revised and harmonised to fully and accurately reflect the proposals to manage the programmes as they are currently proposed. It is very important that there are very clear, explicit, detailed documents to describe the arrangements so that all stakeholders are absolutely clear on the regulatory context both within DBS and also within Ireland and Germany respectively. Learners need to have absolute clarity on who is doing what and who has responsibility for what – both in the first instance and ultimately. This includes the collaborative agreement and the transnational programme handbooks and any other documents in which the programme management arrangements are referenced..
