Minimum Learners per Intake:	16	16
Maximum Learners per Intake:	120	60
Duration (months)	12	12

Delivery Mode: full-time /	Full Time, Part Time
part-time	

Target Learner Groups

The programme is available full-time on-campus and part-time via blended learning mode to both domestic and international applicants who can evidence the requisite academic and discipline specific knowledge, skill and competence equivalent to a level 7 standard. It is envisaged that the full-time programme will be of interest to international learners and new graduates of level 7 programmes who progressed straight from school to higher education. The part-time blended learning mode of delivery is intended for individuals currently in employment, or with employment experience who can evidence the entry standard through qualifications or RP(E)L. Applicants will normally be graduates of level 7 ordinary degree programmes in business or cognate disciplines aspiring to or working in graduate level roles in a variety of leadership or management roles in a commercial enterprise. Applicants seeking admission through experiential learning will be considered in accordance with CCT policy.

Brief Synopsis of the Programmes

The Bachelor of Business Honours is designed to provide an academic progression route for graduates of level 7 degrees in business or a route to an honours degree via RP(E)L for applicants with relevant experience and or professional qualifications. The programme produces graduates with the academic, intellectual and transversal skills to enhance their employability, ensure their capacity to remain competitive in an ever-advancing sector, and equip them for further study. The programme will provide graduates with the knowledge, skills and competence to operate effectively in the business environment, equipping them to question, analyse, synthesise and critically evaluate situation and context in seeking solutions to business problems.

The programme comprises of 60 ects of modules which reflect the essential curriculum to prepare students for employment in leadership or management roles in a commercial enterprise. The programme utilises a carefully designed curriculum structure with modules focussed on specific disciplinary areas of significance to business practice and operations. These modules facilitate the acquisition of discipline specific knowledge, skill and competence along with the development of transversal skills. The programme will produce graduates equipped to enter organisations in graduate level positions or progress to further academic study at Masters level. An authentic assessment model is reflected in the programme assessment strategy. Summative assessment is a blend of integrated assessment and module specific assessment utilising both group and individual work, and the programme assessment strategy also features a capstone assessment. Formative assessment is integrated into module delivery through both in-class and independent study activities enabling students to self-assess and / or be assessed by faculty to determine their progress towards attainment of learning outcomes. Summative assessments also include a formative element with feedback provided to learners. The capstone Applied Business Practice module requires students to integrate the learning from the programme's modules and apply this to a real-world business scenario or problem, provided with the support of the CCT Industry Engagement Forum.

The programme is available as a full-time on-campus programme and a part-time programme delivered through blended learning using the college's physical and virtual campus facilities. Teaching, learning and assessment is undertaken in a discipline-focused context. This will be supported by members of the CCT Industry Engagement Forum who will support the programme delivery, providing real-world and real-time business challenges and experiences, through guest lecturing, site / virtual visits, and providing business-initiated problems, case studies and scenarios to inform formative and summative assessment design.

Teaching and Learning Modes

- 1. Directed Learning
- 2. E-learning (directed)
- 3. E-learning (self-directed)

Ireland

Physical Resource Requirements

No special resources beyond the existing physical and virtual campus facilities of CCT are required for the delivery of this programme. The College is fully equipped for blended learning provision, having secured extension of scope from QQI in 2020 and further extended technical infrastructure, physical and virtual resources, and human capacity since.

Staff Profiles	Qualifications and Experience									
Librarian	Qualified Library professional experienced higher education context online and on-ca		orting students in a	0.2						
Ed Tech	Expertise in using technology to design, create, and deliver curriculum content and learning and assessment activities, employing a variety of tools and platforms, to provide an effective and interactive learning experience in blended learning mode. Works with academic faculty to inform develop, assist in design and creation of content, and undertakes testing as required.									
Lecturer	The CCT policy as approved by QQI, specifies the following: Academic Council of CCT has outlined the minimum requirements for academic appointments as follows: • Evidence of appropriate subject matter expertise is essential, evidenced through academic or professional qualifications, and advanced professional, vocational, technical or research activity in a relevant field. Normally, candidates should have a qualification at the NFQ level above the programme on which they will be teaching. In the case of Masters programmes, a Masters or equivalent professional qualification is normally required. Where potential applicant lecturers do not possess a Masters qualification but are identified as experts in their field, applications should be brought to the attention of the Chair of Academic Council, Dean of School and Dean of Academic Affairs who are authorised to approve a derogation, where deemed appropriate. In such cases, supervision and mentorship in matters relating to teaching and assessment may be required. • Currency of subject matter expertise should be evidenced through recent and regular professional development activity including training and practice. • Training in pedagogy or experience in teaching and assessing is also desirable. Where this is not evidenced, successful candidates will be required to commit to engaging in appropriate activities

Conditions of Validation of the Programmes Covered by this Certificate of Validation

Part 1: Statutory Conditions of Validation

The statutory (section 45(3) of the 2012 Act) conditions of validation are that the provider of the programme shall:

- 1. Co-operate with and assist QQI in the performance of QQI's functions in so far as those functions relate to the functions of the provider,
- 2. Establish procedures which are fair and consistent for the assessment of enrolled learners to ensure the standards of knowledge, skill or competence determined by QQI under section 49 (1) are acquired, and where appropriate, demonstrated, by enrolled learners,
- 3. Continue to comply with section 65 of the 2012 Act in respect of arrangements for the protection of enrolled learners, if applicable, and
- 4. Provide to QQI such information as QQI may from time to time require for the purposes of the performance of its functions, including information in respect of completion rates.

Part 2 Conditions of Validation Established by QQI Under section 45(4)(b) of the 2012 Act)

Part 2.1 Condition of Validation Concerning a Change in the QQI Award or Award Standard

1. Where QQI changes an award title, an award specification or an award standard that a programme depends upon, the provider shall not enrol any further learners on the affected programmes unless informed otherwise in writing by QQI (e.g. by the issue of a revised certificate of validation). The programme is considered validated for learners already enrolled on the affected programme.

Part 2.2 Condition of Validation Concerning the Duration of Enrolment

1. The duration of enrolment is the interval during which learners may be enrolled on the validated programme.

Validation is determined by QQI for a specified number of years of enrolment appropriate to the particular programme as indicated on the certificate on validation subject to unit 9.2.1. It is a condition of validation that the programme does not enrol any new learners outside this interval. A typical duration would be five years.

If a provider wishes to continue to enrol learners to the programme beyond this interval the provider must arrange in good time for it to be validated again by QQI, or exceptionally the provider may apply for extension of the duration of enrolment (unit (14)). In this context the provider may apply for validation of the programme from first principles or, alternatively, the provider may avail of the process for revalidation (unit (13)) by QQI.

Part 2.3 General Condition of Validation

The provider of the programme shall:

- 1. Ensure that the programme as implemented does not differ in a material way from the programme as validated; differing in a material way is defined as differing in any aspect of the programme or its implementation that was material to QQI's validation criteria.
- 2. Ensure that the programme is provided with the appropriate staff and physical resources as validated.
- 3. Implement in respect of the programme its written quality assurance procedures (as approved by QQI).
- 4. Make no significant change to the programme without the prior approval of QQI. (See unit (8)).
- 5. Unless otherwise agreed by QQI in writting, start implementing the programme as validated and enrol learners within 18 months of validation.
- 6. Continue in respect of the validated programme to comply with section 56 of the 2012 Act in respect of procedures for access, transfer and progression.
- 7. Implement the programme and procedures for assessment of learners in accordance with the Approved Programme Schedule and notify QQI in writing of any amendments to this arising from changes to the programme; see unit (9).
- 8. When advertising and promoting the programme and awards, use the programme title as validated, and the correct QQI award title(s), award type(s) and award class(es) indicating the level of the award(s) on the National Framework of Qualifications.

- 9. Adhere to QQI regulations and procedures for certification.
- 10. Notify QQI in writing without delay of: a. Any material change to the programme; a. Anything that impacts on the integrity or reputation of the programme or the corresponding QQI awards; b. Anything that infringes the conditions of validation; or c. Anything that would be likely to cause QQI to consider reviewing the validation.
- 11. Notify QQI in writing to determine the implications for the provider's validated programmes, where the provider is likely to, or planning to, merge (amalgamate) with another entity or to acquire, or be acquired by, another entity (see unit (12.5)).
- 12. Report to QQI, when required or requested, on its implementation of the programme and compliance with the conditions of validation.

Part 2.4 General Condition of Validation Arising from Specialised Validation Policy and Criteria
