Evidence for Enhancement: Improving the Student Experience

RESPONDING TO STUDENT VOICE: PRINCIPLES OF PRACTICE CARDS INTRODUCTORY SHEET

What are the Responding to Student Voice: Principles of Practice cards?

Student feedback plays a crucial role in every aspect of higher education. Responding to student voice involves paying attention to how student feedback is processed and how the impact of this activity is communicated back.

WHEN CAN I USE THE CARDS?

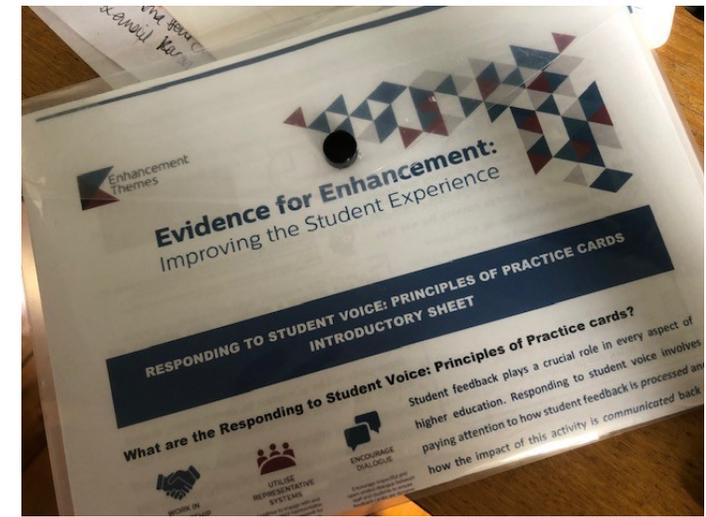

The principle cards can be used by individuals or groups in formal and informal contexts. Ultimately, the cards should be used in an active way rather than simply consulted as a check-list. You should write on them, annotate them, use them as a stimulus for discussion, and as mechanism for planning changes. Here are some suggested uses, offered by students involved in the project which delivered these cards:

-  To audit Institutional or Students' Association policies
-  To gauge consistency and difference across Institution or Students' Association
-  As a framework for establishing student views
-  In staff development sessions
-  During programme or module review exercises
-  To identify, evaluate, and share effective practice
-  In workshops with students and/or staff
-  In staff and student representative inductions

Using the notes on the back of each principle card, the A3 planning grid sheet included in the pack can be used to plot activities and interventions across the principles.

Beyond COVID-19: the Future of Digital and Blended Delivery

- Links between good practice in digital LTA and improved student engagement, progression and achievement
- Supporting students to engage in discussions about quality, academic standards and value

Who is Responsible?

Digital pedagogy associated with positive student engagement:

- provider-wide guidance on course design
- a pedagogy-led blend of instructional and interactive content
- the ability for students to easily access and revisit material in their own time
- the use of digital platforms to encourage new forms of collaboration between students and industry partners
- opportunities for live interactions with academic staff

Students have demonstrated their resilience, flexibility and creativity in undertaking projects and related assessments during the pandemic

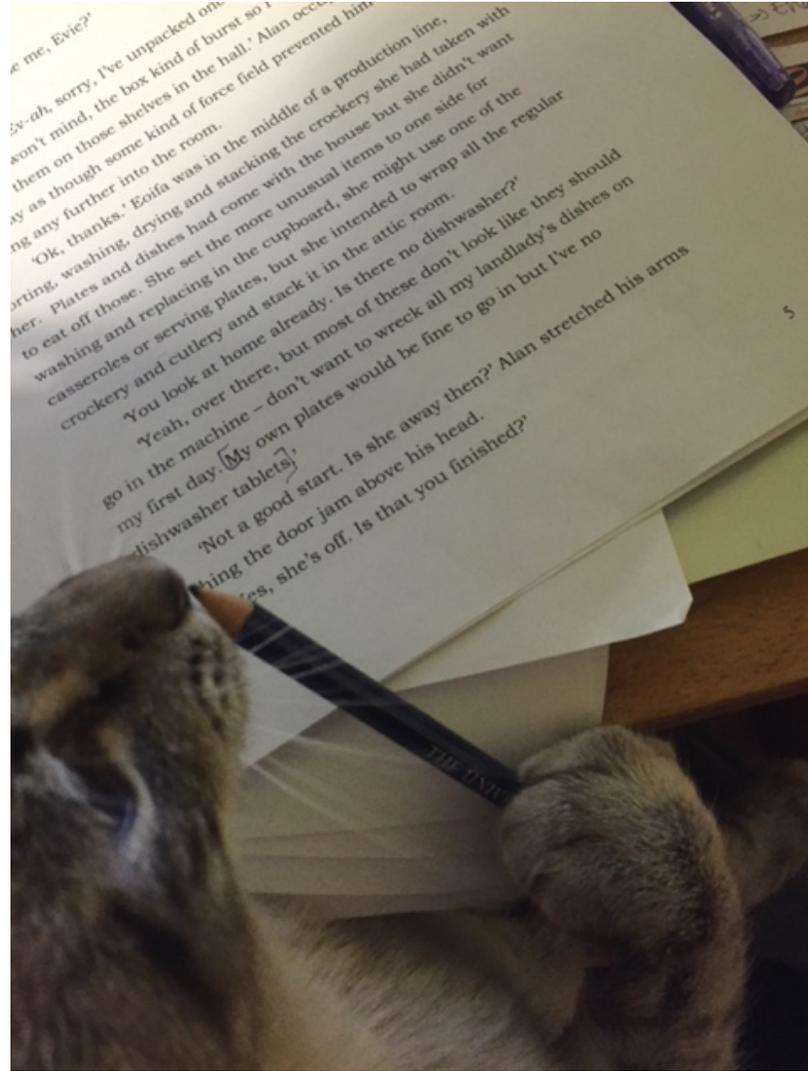

Beyond the pandemic...how will students study & what will we want from higher education?

Academic standards (value of the qualification)

Nature of student experience:

- Role of the campus?
- Personalisation & sense of belonging
- Patterns of provision (graduate/degree apprenticeships, lifelong learning, upskilling)
