## MATHEMATIC AWARDS

03/05/2016

A new Special Purpose award, Maths for Stem, (5S22546) may be embedded (as a 30 credit minor award, 5N0556) within certain programmes offered at level 5, e.g. leading to Computer Systems and Networks.

Learners may present with the special purpose award (or with a minor award Math for STEM 5N0556) from July 2016.

This award aims to match HC3 achievement in leaving certificate mathematics. A programme leading to the Special Purpose award is being validated by a panel comprising higher and further education mathematics experts. A report of the panel findings will be published by QQI in 2016.

Other mathematics awards now include Maths for Information Technology (5N18396), Computational Methods and Problem Solving (5N0554) offered within e.g. 5M0536 Computer Systems and Networks or 5M0529 Software Development.
