Component Specification NFQ Level 6

Drawing 6N3569

1. Component Details

| | |
|---------------------------|---|
| Title | Drawing |
| Teideal as Gaeilge | Líníocht |
| Award Type | Minor |
| Code | 6N3569 |
| Level | 6 |
| Credit Value | 15 |
| Purpose | The purpose of this award is to equip the learner with the knowledge, skill and competence to use drawing as a disciplined personal visual language to communicate expressively and to solve visual or design problems using a comprehensive range of media, with due regard for relevant theories, properties of media and health and safety requirements. |

| | |
|--------------------------|---|
| Learning Outcomes | Learners will be able to: |
| 1 | Evaluate a comprehensive range of approaches to drawing as an expressive and communicative language |
| 2 | Locate own and others paintings in theoretical context using correct terminology |
| 3 | Use drawings to record, analyse and interpret a variety of subjects effectively and accurately, including natural, manmade, animate and inanimate objects and forms |
| 4 | Use drawing to visualise solutions and develop concepts including with reference to primary and |

secondary research material for problem solving and design and for personal expressive work

- 5 Exploit the formal qualities of drawings including principles and elements, including for two dimensional (2D) and three dimensional (3D) systematic design and expressive purposes
- 6 Identify the limitations and possibilities of materials and processes through extensive experimentation
- 7 Produce a coherent conclusive body of drawings to exhibition standard underpinned by appropriate research practices
- 8 Integrate cross disciplinary skills and knowledge in approaches to drawing
- 9 Establish a process of drawing using personal ideas and motivations for robust design and expressive practice
- 10 Exercise responsible workshop practice including with regard to planning, administration, health and safety and environmental concerns
- 11 Evaluate the quality of drawings including with regard to expressive impact, technical competence/craft skill appropriateness of treatment and presentation.

Assessment

General Information

All assessment should be planned in accordance with the programme assessment strategy developed as part of the programme submission for validation. See **Policies and Criteria for Validation of Programmes**. Assessment should be undertaken consistently and reflect current assessment guidelines. See www.gqi.ie.

All FET assessment is criterion referenced. Successful achievement of the award is based on learners attaining the required standards of knowledge, skill or competence consistent with the **minimum intended programme learning outcomes**.

The techniques set out below are considered the optimum approach to assessment for this component. In exceptional circumstances providers may identify alternative assessment techniques through the provider's application for programme validation which are reliable and valid but which are more appropriate to their context.

Assessment of a number of components may be integrated across programmes for delivery, provided that the learning outcomes of each minor award are assessed.

Group or team work may form part of the assessment, provided each learner's achievement is separately assessed.

All providers are required to submit an assessment plan as part of their application for programme validation. Assessment Plans will include information relating to scheduling and integration of assessment. See current FET validation guidelines at www.qqi.ie.

Assessment Techniques

In order to demonstrate that they have reached the standards of knowledge, skill and competence identified in all the learning outcomes, learners are required to complete the assessment(s) below.

The assessor is responsible for devising assessment instruments (e.g. project and assignment briefs, examination papers), assessment criteria and mark sheets, consistent with the techniques identified below and QQI's assessment requirements.

Programme validation will require providers to map each learning outcome to its associated assessment technique. All learning outcomes **must** be assessed and achieved in accordance with the **minimum intended module learning outcomes** set out in the validated programme.

Portfolio / Collection of Work 100%

Description

Portfolio / Collection of Work

A portfolio or collection of work is a collection and/or selection of pieces of work produced by the learner over a period of time that demonstrates achievement of a range of learning outcomes. The collection may be self-generated or may be generated in response to a particular brief or tasks/activities devised by the assessor.

Recognition of Prior Learning (RPL)

To support the development and implementation of RPL with regard to access, granting credit/exemptions and achievement of awards/parts of awards, providers should refer to **QQI's Statutory Guidelines for Quality Assurance**, the **Policies and Criteria for Validation of Programmes** and the **Principles and Operational Guidelines for the Recognition of Prior Learning**

in Further and Higher Education and Training available at www.qqi.ie

| | | |
|---|---|------------|
| Grading | Pass | 50% - 64% |
| | Merit | 65% - 79% |
| | Distinction | 80% - 100% |
| Specific Validation Requirements | There are no specific validation requirements | |
| Supporting Documentation | None | |
| Access | To access programmes leading to this award the learner should have reached the standards of knowledge, skill and competence associated with the preceding level of the National Framework of Qualifications. This may have been achieved through a formal qualification or through relevant life and work experience. | |
| Transfer | Successful completion of this component award enables the learner to transfer to programmes leading to other certificates where this component is a mandatory or an elective requirement. | |

2. FET Award Standards

QQI award standards are determined within the National Framework of Qualifications (NFQ), <http://www.nfq-qqi.com>. QQI determines standards for the education and training awards that it makes itself and that are made by providers to whom it has delegated authority to make an award. Providers offering programmes leading to QQI awards **must** have their programme(s) validated in accordance with current validation policy (see www.qqi.ie).

Award standards are designed to be consistent with the NFQ's award classes i.e. major, special purpose, supplemental and minor awards. They are expressed in terms of **learning outcomes** i.e. concise statements of what the learner is expected to know or be able to do in order to achieve a particular award. Learning outcomes for FET awards are contained within the associated specifications:

| AWARD CLASS | STANDARDS | AWARDS |
|--------------------|--------------------------------|---|
| Major Award | Certificate Specification | Certificate (Levels 1 to 5) Advanced Certificate (Level 6) |
| Supplemental Award | Supplemental Specification | Supplemental Certificate (Level 3 to 6) |
| Special Purpose | Specific Purpose Specification | Specific Purpose Certificate (Levels 3 to 6) |
| Minor Award | Component Specification | Component Certificate (Levels 1 to 6) |

Award standards are thresholds, they describe standards of knowledge, skill or competence to be acquired, and where appropriate, demonstrated, by a learner before an award may be made.

Award standards will be reviewed from time to time as necessary. Minor changes may be made by the QQI executive outside the review cycle where necessary. Changes to standards are published on QQI's website. Providers with validated programmes and providers with delegated authority to make awards are responsible for monitoring relevant standards and making necessary responses to changes.

3. FET Credit

Every FET certificate and component specification includes an FET credit value (Table 1). FET credit is quantified in multiples of 5 FET credits (up to 50 hours of learner effort). Learner effort is based on the time taken by typical learners at the level of the award to achieve the learning outcomes for the award. It includes all learning time involved including: guided learning hours, self-directed learning and assessment.

Table 1: FET Credit Values

| NFQ Level | Major Awards Credit Values | Default Credit Values Minor Awards | Other Permitted Minor Award Credit Values | Special Purpose and Supplemental Award Credit Value Ranges |
|-----------|----------------------------|------------------------------------|---|--|
| 1 | 20 | 5 | 10 | |
| 2 | 30 | 5 | 10 | |
| 3 | 60 | 10 | 5,20 | >5 and <60 |
| 4 | 90 | 10 | 5,15,20 | >5 and <90 |
| 5 | 120 | 15 | 5,10,30 | >5 and <120 |
| 6 | 120 | 15 | 5,10,30 | >5 and <120 |

Guide to Level

Learning outcomes at this level include a comprehensive range of skills which may be vocationally-specific and/or of a general supervisory nature, and require detailed theoretical understanding. The outcomes also provide for a particular focus on learning skills. The outcomes relate to working in a generally autonomous way to assume design and/or management and/or administrative responsibilities. Occupations at this level would include higher craft, junior technician and supervisor.

| Strand | Sub-strand | Nature of learning |
|------------------|-------------|--|
| Knowledge | Breadth | Specialised knowledge of a broad area |
| | Kind | Some theoretical concepts and abstract thinking, with significant depth in some areas |
| Know How & Skill | Range | Demonstrate a comprehensive range of specialised skills and tools |
| | Selectivity | Formulate responses to well defined abstract problems |
| Competence | Context | Utilise diagnostic and creative skills in a range of functions in a wide variety of contexts |

| | |
|-------------------|--|
| Role | Exercise substantial personal autonomy and often take responsibility for the work of others and/or for the allocation of resources; form and function within, multiple and complex heterogeneous groups. |
| Learning to Learn | Learn to take responsibility for own learning within a managed environment. |
| Insight | Express an internalised, personal world view, reflecting engagement with others. |
