Component Specification NFQ Level 6

Sales and Marketing Management 6N3613

1. Component Details

Title	Sales and Marketing Management
Teideal as Gaeilge	Bainistíocht Mhargaíochta agus Díolacháin
Award Type	Minor
Code	6N3613
Level	6
Credit Value	15
Purpose	The purpose of this award is to equip the learner with the knowledge, skill and competence to plan, carry out and evaluate sales and marketing activities to meet the objectives of a range of organisations.
Learning Outcomes	<p>Learners will be able to:</p> <ol style="list-style-type: none">1 Assess the principles of sales and marketing management to include the planning and execution of the pricing, promotion and distribution elements of a marketing plan, the budgeting and forecasting of a sales plan and the recruitment, organisation, compensation and evaluation of a sales team2 Appraise the sales and marketing environment to include market entry strategies and analyses of consumer behavior3 Analyse customer needs to include their motivations and style through emotional, reassurance purchase and esteem purchases as they relate to the sales cycle

- 4 Evaluate the types of sales and marketing environments that organisations operate in to include business to consumer and business to business markets and the methods of promotion available to organisations at each stage of their development
- 5 Interpret the impact of a range of micro and macro factors that effect sales and marketing decisions
- 6 Identify the main features and impacts of the legal and regulatory framework relevant to the sales and marketing function
- 7 Research the company's market, current and potential customer base, competition, market segmentation, target market and position for a range of products and services to potentially maximise all selling opportunities
- 8 Utilise internal and external analysis techniques including strengths weaknesses opportunities and threats (SWOT), political economic social technical legal (PESTLE) and Porter's Five Forces in formulating sales and marketing plans
- 9 Formulate sales management techniques to meet the needs of a range of organisations to include appropriate marketing and selling key performance indicators
- 10 Estimate the budgets and forecasts for a sales and marketing plan
- 11 Develop and adapt the marketing mix for products and services over time and in different markets
- 12 Devise an after sales service policy for their organisation to include the interpersonal skills required when dealing with a dissatisfied customer post sale and how new sales opportunities can be created from after sales service
- 13 Revise strategic planning, marketing activities, market research and sales management to adapt to the changing business environment
- 14 Illustrate how sales targets and profits are achieved through a balanced product and service portfolio
- 15 Manage a range of sales functions to include the recruitment, motivation, leadership, training, organisation, staff compensation and evaluation and the modeling of the complete sales cycle in line with organisational key performance indicators

- 16 Supervise the implementation of a sales and marketing plan
- 17 Appraise the performance of sales and marketing personnel against key performance indicators.

Assessment

General Information

All assessment should be planned in accordance with the programme assessment strategy developed as part of the programme submission for validation. See **Policies and Criteria for Validation of Programmes**. Assessment should be undertaken consistently and reflect current assessment guidelines. See www.qqi.ie.

All FET assessment is criterion referenced. Successful achievement of the award is based on learners attaining the required standards of knowledge, skill or competence consistent with the **minimum intended programme learning outcomes**.

The techniques set out below are considered the optimum approach to assessment for this component. In exceptional circumstances providers may identify alternative assessment techniques through the provider's application for programme validation which are reliable and valid but which are more appropriate to their context.

Assessment of a number of components may be integrated across programmes for delivery, provided that the learning outcomes of each minor award are assessed.

Group or team work may form part of the assessment, provided each learner's achievement is separately assessed.

All providers are required to submit an assessment plan as part of their application for programme validation. Assessment Plans will include information relating to scheduling and integration of assessment. See current FET validation guidelines at www.qqi.ie.

Assessment Techniques

In order to demonstrate that they have reached the standards of knowledge, skill and competence identified in all the learning outcomes, learners are required to complete the assessment(s) below.

The assessor is responsible for devising assessment instruments (e.g. project and assignment briefs, examination papers), assessment criteria and mark sheets, consistent with

the techniques identified below and QQI's assessment requirements.

Programme validation will require providers to map each learning outcome to its associated assessment technique. All learning outcomes **must** be assessed and achieved in accordance with the **minimum intended module learning outcomes** set out in the validated programme.

Examination - Theory	40%
Project	40%
Assignment	20%

Description

Examination - Theory

An examination provides a means of assessing a learner's ability to recall and apply knowledge, skills and understanding within a set period of time and under clearly specified conditions.

A theory-based examination assesses the ability to recall, apply and understand specific theory and knowledge.

Project

A project is a response to a brief devised by the assessor. A project is usually carried out over an extended period of time. Projects may involve research, require investigation of a topic, issue or problem or may involve process such as a design task, a performance or practical activity or production of an artefact or event.

Assignment

An assignment is an exercise carried out in response to a brief with specific guidelines as to what should be included. An assignment is usually of short duration and may be carried out over a specified period of time.

Recognition of Prior Learning (RPL)

To support the development and implementation of RPL with regard to access, granting credit/exemptions and achievement of awards/parts of awards, providers should refer to **QQI's Statutory Guidelines for Quality Assurance**, the **Policies and Criteria for Validation of Programmes** and the **Principles and Operational Guidelines for the Recognition of Prior Learning**

in Further and Higher Education and Training available at www.qqi.ie

Grading	<table border="0"> <tr> <td>Pass</td> <td>50% - 64%</td> </tr> <tr> <td>Merit</td> <td>65% - 79%</td> </tr> <tr> <td>Distinction</td> <td>80% - 100%</td> </tr> </table>	Pass	50% - 64%	Merit	65% - 79%	Distinction	80% - 100%
Pass	50% - 64%						
Merit	65% - 79%						
Distinction	80% - 100%						
Specific Validation Requirements	There are no specific validation requirements						
Supporting Documentation	1. Expert Group on Future Skills Needs Report 'Future Skills Needs of the Wholesale and Retail Sector (Forfas, April 2010)						
Access	To access programmes leading to this award the learner should have reached the standards of knowledge, skill and competence associated with the preceding level of the National Framework of Qualifications. This may have been achieved through a formal qualification or through relevant life and work experience.						
Transfer	Successful completion of this component award enables the learner to transfer to programmes leading to other certificates where this component is a mandatory or an elective requirement.						

2. FET Award Standards

QQI award standards are determined within the National Framework of Qualifications (NFQ), <http://www.nfq-qqi.com>. QQI determines standards for the education and training awards that it makes itself and that are made by providers to whom it has delegated authority to make an award. Providers offering programmes leading to QQI awards **must** have their programme(s) validated in accordance with current validation policy (see www.qqi.ie).

Award standards are designed to be consistent with the NFQ's award classes i.e. major, special purpose, supplemental and minor awards. They are expressed in terms of **learning outcomes** i.e. concise statements of what the learner is expected to know or be able to do in order to achieve a particular award. Learning outcomes for FET awards are contained within the associated specifications:

AWARD CLASS	STANDARDS	AWARDS
Major Award	Certificate Specification	Certificate (Levels 1 to 5) Advanced Certificate (Level 6)
Supplemental Award	Supplemental Specification	Supplemental Certificate (Level 3 to 6)
Special Purpose	Specific Purpose Specification	Specific Purpose Certificate (Levels 3 to 6)
Minor Award	Component Specification	Component Certificate (Levels 1 to 6)

Award standards are thresholds, they describe standards of knowledge, skill or competence to be acquired, and where appropriate, demonstrated, by a learner before an award may be made.

Award standards will be reviewed from time to time as necessary. Minor changes may be made by the QQI executive outside the review cycle where necessary. Changes to standards are published on QQI's website. Providers with validated programmes and providers with delegated authority to make awards are responsible for monitoring relevant standards and making necessary responses to changes.

3. FET Credit

Every FET certificate and component specification includes an FET credit value (Table 1). FET credit is quantified in multiples of 5 FET credits (up to 50 hours of learner effort). Learner effort is based on the time taken by typical learners at the level of the award to achieve the learning outcomes for the award. It includes all learning time involved including: guided learning hours, self-directed learning and assessment.

Table 1: FET Credit Values

NFQ Level	Major Awards Credit Values	Default Credit Values Minor Awards	Other Permitted Minor Award Credit Values	Special Purpose and Supplemental Award Credit Value Ranges
1	20	5	10	
2	30	5	10	
3	60	10	5,20	>5 and <60
4	90	10	5,15,20	>5 and <90
5	120	15	5,10,30	>5 and <120
6	120	15	5,10,30	>5 and <120

Guide to Level

Learning outcomes at this level include a comprehensive range of skills which may be vocationally-specific and/or of a general supervisory nature, and require detailed theoretical understanding. The outcomes also provide for a particular focus on learning skills. The outcomes relate to working in a generally autonomous way to assume design and/or management and/or administrative responsibilities. Occupations at this level would include higher craft, junior technician and supervisor.

Strand	Sub-strand	Nature of learning
Knowledge	Breadth	Specialised knowledge of a broad area
	Kind	Some theoretical concepts and abstract thinking, with significant depth in some areas
Know How & Skill	Range	Demonstrate a comprehensive range of specialised skills and tools
	Selectivity	Formulate responses to well defined abstract problems
Competence	Context	Utilise diagnostic and creative skills in a range of functions in a wide variety of contexts

Role	Exercise substantial personal autonomy and often take responsibility for the work of others and/or for the allocation of resources; form and function within, multiple and complex heterogeneous groups.
Learning to Learn	Learn to take responsibility for own learning within a managed environment.
Insight	Express an internalised, personal world view, reflecting engagement with others.
