### Target Learner Groups

The target learners on this programme are likely to be graduates from non-cognate degrees wishing to undertake a conversation course or cognate degree holders looking to specialise in the area of international business. All learners are likely to aspire to senior management positions in time and see the Master of Science in International Business as the first step towards achieving this goal.

### Brief Synopsis of the Programmes

The programme seeks to develop, via its teaching and learning strategies, an understanding of core business and management disciplines and how they interrelate to allow practitioners to identify and resolve issues in a practical business environment.

The programme emphasises the development of business and management skills by familiarizing learners with practical business problems and encouraging them to solve them using analytical, decision-making, effective communication and leadership skills, which can be applied in the modern organisation.

More specifically, the programme has been specifically designed for those wishing to gain deeper knowledge of the international business environment as both employees or as owner/managers of businesses operating internationally. This programme will, therefore, equip managers with the skills and competencies required to succeed in both a global and local context by developing learners' understanding of the vital role that international business practices and considerations perform in the modern corporate environment.

### Target Learner Groups

The target learners on this programme are graduates from non-cognate degrees wishing to undertake a conversion course or cognate degree holders looking to specialise in the area of international business. Target learners will typically wish to progress into middle and senior management positions in an international business environment. Additionally, the course can provide a transition stage for graduates from other disciplines who wish to move into the management arena as practitioners, researchers and consultants. Candidates are required to hold a minimum of a level 8 qualification (minimum 2:2 Honours) or equivalent on the National Qualifications Framework.

### Brief Synopsis of the Programmes

The programme seeks to develop, via its teaching and learning strategies, an understanding of core business and management disciplines and how they interrelate to allow practitioners to identify and resolve issues in a practical business environment. The programme emphasises the development of business and management skills by familiarizing learners with practical business problems and encouraging them to solve them using analytical, decision-making, effective communication and leadership skills, which can be applied in the modern organisation. More specifically, the programme has been specifically designed for those wishing to gain deeper knowledge of the international business environment as both employees or as owner/managers of businesses operating internationally. This programme will, therefore, equip managers with the skills and competencies required to succeed in both a global and local context by developing learners' understanding of the vital role that international business practices and considerations perform in the modern corporate environment.

### Physical Resource Requirements

The College has demonstrated appropriate physical and digital resources are in place to support the teaching, learning & assessment strategy of the programme. Physical learning spaces include traditional classrooms, spaces for collaborative learning and access to appropriate technologies as required by individual module curriculum e.g. word, excel, PowerPoint and similar products. Primarily, modules on this programme will require access to a lab with projector, Moodle access. Microsoft Teams, and access to online and physical supports and library services. Learners also have access to personal and group study spaces as well as recreation and dining spaces.

The programme requires appropriate learning spaces to facilitate the teaching, learning & assessment strategy of the programme. Learning spaces should accommodate traditional classrooms, spaces for collaborative learning and access to appropriate technologies as required by individual module curriculum e.g. word, excel, PowerPoint or similar products. Primarily, modules on this programme will require access to a lab with projector, Moodle access and support and library access. Learners also have access to appropriate personal study spaces, recreation and dining spaces.

# Conditions of Validation of the Programmes Covered by this Certificate of Validation

## Part 1: Statutory Conditions of Validation

The statutory (section 45(3) of the 2012 Act) conditions of validation are that the provider of the programme shall:

1. Co-operate with and assist QQI in the performance of QQI's functions in so far as those functions relate to the functions of the provider,
2. Establish procedures which are fair and consistent for the assessment of enrolled learners to ensure the standards of knowledge, skill or competence determined by QQI under section 49 (1) are acquired, and where appropriate, demonstrated, by enrolled learners,
3. Continue to comply with section 65 of the 2012 Act in respect of arrangements for the protection of enrolled learners, if applicable, and
4. Provide to QQI such information as QQI may from time to time require for the purposes of the performance of its functions, including information in respect of completion rates.

## Part 2 Conditions of Validation Established by QQI Under section 45(4)(b) of the 2012 Act

### Part 2.1 Condition of Validation Concerning a Change in the QQI Award or Award Standard

1. Where QQI changes an award title, an award specification or an award standard that a programme depends upon, the provider shall not enrol any further learners on the affected programmes unless informed otherwise in writing by QQI (e.g. by the issue of a revised certificate of validation). The programme is considered validated for learners already enrolled on the affected programme.

### Part 2.2 Condition of Validation Concerning the Duration of Enrolment

1. The duration of enrolment is the interval during which learners may be enrolled on the validated programme.

Validation is determined by QQI for a specified number of years of enrolment appropriate to the particular programme as indicated on the certificate on validation subject to unit 9.2.1. It is a condition of validation that the programme does not enrol any new learners outside this interval. A typical duration would be five years.

If a provider wishes to continue to enrol learners to the programme beyond this interval the provider must arrange in good time for it to be validated again by QQI, or exceptionally the provider may apply for extension of the duration of enrolment (unit (14)). In this context the provider may apply for validation of the programme from first principles or, alternatively, the provider may avail of the process for revalidation (unit (13)) by QQI.

### Part 2.3 General Condition of Validation

The provider of the programme shall:

1. Ensure that the programme as implemented does not differ in a material way from the programme as validated; differing in a material way is defined as differing in any aspect of the programme or its implementation that was material to QQI's validation criteria.
2. Ensure that the programme is provided with the appropriate staff and physical resources as validated.
3. Implement in respect of the programme its written quality assurance procedures (as approved by QQI).
4. Make no significant change to the programme without the prior approval of QQI. (See unit (8)).
5. Unless otherwise agreed by QQI in writing, start implementing the programme as validated and enrol learners within 18 months of validation.
6. Continue in respect of the validated programme to comply with section 56 of the 2012 Act in respect of procedures for access, transfer and progression.
7. Implement the programme and procedures for assessment of learners in accordance with the Approved Programme Schedule and notify QQI in writing of any amendments to this arising from changes to the programme; see unit (9).
8. When advertising and promoting the programme and awards, use the programme title as validated, and the correct QQI award title(s), award type(s) and award class(es) indicating the level of the award(s) on the National Framework of Qualifications.

9. Adhere to QQI regulations and procedures for certification.

10. Notify QQI in writing without delay of: a. Any material change to the programme; a. Anything that impacts on the integrity or reputation of the programme or the corresponding QQI awards; b. Anything that infringes the conditions of validation; or c. Anything that would be likely to cause QQI to consider reviewing the validation.

11. Notify QQI in writing to determine the implications for the provider's validated programmes, where the provider is likely to, or planning to, merge (amalgamate) with another entity or to acquire, or be acquired by, another entity (see unit (12.5)) .

12. Report to QQI, when required or requested, on its implementation of the programme and compliance with the conditions of validation.

#### **Part 2.4 General Condition of Validation Arising from Specialised Validation Policy and Criteria**

1.

#### **Part 2.5 Special Conditions of Validation**
